

Release Notes

CY8CKIT-059 PSoC[®] 5LP Prototyping Kit

Release Date: March 31, 2015

Thank you for your interest in the CY8CKIT-059 PSoC[®] 5LP Prototyping Kit. This document lists installation requirements and kit documentation.

Kit Content

The CY8CKIT-059 PSoC 5LP Prototyping Kit includes the following items:

- CY8CKIT-059 PSoC 5LP prototyping board
- Quick start guide

Software and Tools

The code examples shipped with this kit require PSoC Creator™ 3.1 or later. This is available with the kit installer or on the PSoC Creator web page (www.cypress.com/go/psoccreator). PSoC Creator also installs the PSoC Programmer software, which is used to program PSoC devices.

Programming of the target PSoC 5LP device on the CY8CKIT-059 requires PSoC Programmer 3.22.2 and KitProg 2.11.

Code Examples and Kit Collateral

The CY8CKIT-059 PSoC 5LP Prototyping Kit web page (www.cypress.com/CY8CKIT-059) includes the kit installation packages, CD image (ISO), and setup files (EXE) to install the code examples shipped with this kit.

PSoC 3 and PSoC 5LP code examples are available on the Cypress website under **Support > Documentation > Code Examples**.

Installation

Installation instructions are provided in the CY8CKIT-059 PSoC 5LP Prototyping Kit User Guide, which is available at www.cypress.com/CY8CKIT-059.

Kit Revision

This is the initial revision (Rev. **) of the CY8CKIT-059 PSoC 5LP Prototyping Kit.

Documentation

The kit documents are located in the `Documentation` folder in the installation directory:

The default location for the kit documents is:

```
<Install_Directory>\CY8CKIT-059\<version>\Documentation
```

Documents include:

- *CY8CKIT-059_User_Guide.pdf*
- *CY8CKIT-059 QuickStartGuide.pdf*
- *CY8CKIT-059_Release_Notes.pdf*

After opening PSoC Creator, the kit documentation is available from the Start Page by expanding the Kits section and clicking on the kit name. The right panel will contain links to the kit documentation.

General PSoC Creator documentation is available in **Help > Documentation**.

The default location for PSoC Creator documents is:

```
<Install_Directory>\PSoC Creator\<version>\PSoC Creator\Documentation
```

The default location for PSoC Programmer documents is:

```
<Install_Directory>\Programmer\Documents
```

Technical Support

For assistance, go to www.cypress.com/support or contact our customer support at +1 (800) 541-4736 Ext. 2 (in the USA), or +1 (408) 943-2600 Ext. 2 (International).

Additional Information

- For more information about PSoC Creator functionality and releases, visit the PSoC Creator web page: www.cypress.com/psoccreator
- For more information about PSoC Programmer and supported hardware, visit the PSoC Programmer web page: www.cypress.com/psocprogrammer
- For a list of trainings on PSoC Creator, visit www.cypress.com/go/creatorstart/creatortraining

Flash Code Protection

Cypress products meet the specifications contained in their particular Cypress PSoC datasheets. Cypress believes that its family of PSoC products is one of the most secure families of its kind on the market today, regardless of how they are used. There may be methods, unknown to Cypress that can breach the code protection features. Any of these methods, to our knowledge, would be dishonest and possibly illegal. Neither Cypress nor any other semiconductor manufacturer can guarantee the security of their code. Code protection does not mean that we are guaranteeing the product as "unbreakable." Cypress is willing to work with the customer who is concerned about the integrity of their code. Code protection is constantly evolving. We at Cypress are committed to continuously improving the code protection features of our products.
