## 【Package】

- 1x LED flashlight
- 1x USB charging cable
- 1x 26650 battery
- 1x Instruction manual

## 【Note】

1. When inserting the battery, please distinguish the polarity "+" and "-". The positive pole faces inward, and the negative pole faces outward.
2. Please do not peel off the blue plastic shell of the battery (the protruding part is the positive electrode, and the flat part is the negative electrode).
3. Please note: we recommended using a USB interface to Charge the flashlight. We do not recommend using a Wall Charger / or others adapters to Charge the flashlight. If you must use the Wall Charger to Charge the flashlight, Please make sure their voltage is under 5V, Otherwise it will damage your flashlight.
4. Pls Do not use up the battery, otherwise the voltage may be too low to charge.
