INSTALLATION

Switch off the power supply before installation!

1. Insert the dowels into the pre-drilled holes.
2. Remove the rear of the luminaire by turning it and thread the supply cable through the hole in the rear of the luminaire.
3. Drill the back of the luminaire.
4. Connect the supply cable to the terminal block and make sure that the connection is correct.
5. Rotate to attach the front of the luminaire to the rear.
6. Switch on the power supply.

REMOTE CONTROL

The light source of this luminaire is non-replaceable, at the end of its service life the entire luminaire must be replaced and disposed of in a designated place. This product contains a light source that for design reasons cannot be removed for verification and therefore the entire product is considered a light source. The manufacturer is not liable for any damage caused by improper use.

The product has been issued with a CE declaration of conformity in accordance with the applicable regulations.
