Essential oil bottle

User manual

Safety Instructions

1. Do not tilt the diffuser, as this may cause motor oil to leak into the device's internal components and damage its parts.
2. Use the diffuser and essential oils with adult supervision.
3. Avoid placing the device in wet areas, liquid surfaces, bathtubs, or outdoor environments.
4. Only use the power cable provided with the diffuser. Ensure the power cable is in a safe location to prevent tripping hazards.
5. Verify that the adapter's voltage matches the power outlet before plugging the diffuser into the outlet.
6. Do not operate the device when the bottle is empty. If the bottle has no cleaning oil or alcohol, turn off the device.
7. By following these safety guidelines, you can use your diffuser safely and effectively.

Installation

1. Remove the top part

Grab the main part of the diffuser and remove the top part.

2. Remove the empty bottle

Turn the diffuser clockwise to remove the empty bottle from the top part of the diffuser.

3. Add essential oils

Pour your favorite essential oil into the bottle and reattach the bottle to the top part of the diffuser by turning it counterclockwise.

Installation

4. Reassemble the diffuser

Finally, place the top cap back into the diffuser body to secure it in place.

5. Connecting the power supply

Connect the 5V-2A power adapter (not included) with the power cord, plug it into the power port of the diffuser and connect it to a 110V-120V power outlet.

6. Enjoy your diffuser

Open the diffuser and enjoy the soothing aroma of the oils!

Operating Instructions

Button operation

1. Click the button for the first time, power on and enter 1st gear, 1st gear indicator light long white.
2. Click the button for the second time, the 2nd gears, the indicator light of the 2nd gears will be white.
3. Click the button for the third time to enter the bluetooth pairing mode, the bluetooth indicator light is long bright purple. When the bluetooth connection is successful, the bluetooth indicator light will flash bright purple.
4. Click the button for the fourth time to turn off the power.

Operating Instructions

Timer

1. The 1st and 2nd gears are set to run for 8 hours by default.
2. When the bluetooth connection is successful, you can customize the schedule as needed in the application.

Power

1. When fully charged, this diffuser can operate continuously on the lowest setting for up to 48 hours.
2. This diffuser only requires 5 hours to be fully charged.

Note

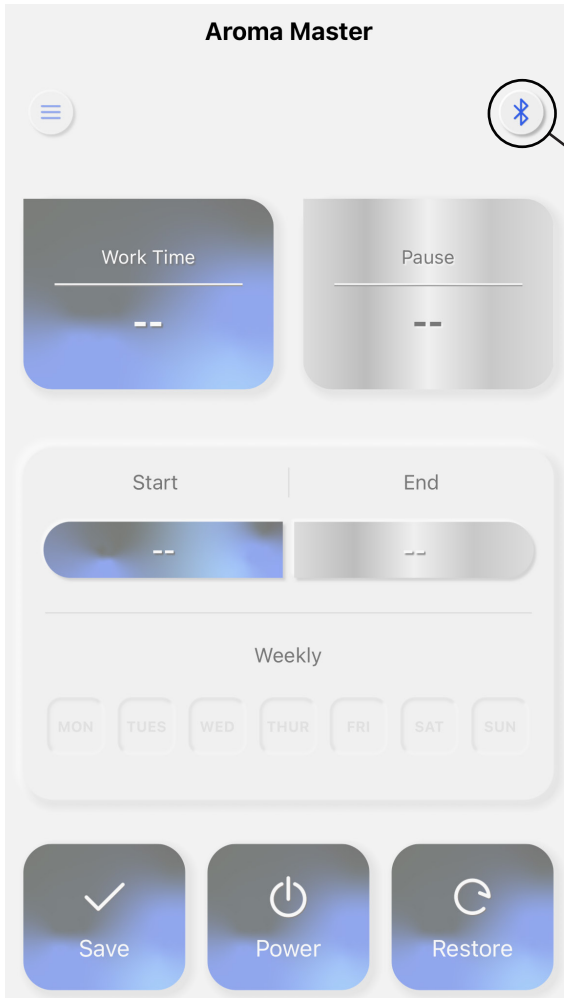

1. Charging time may vary slightly depending on the power source and environmental conditions.
2. Actual battery life may vary depending on environmental temperature, humidity, essential oil type, and frequency of use.
3. When charging - the gear indicator light will light up in order, and the three gear lights will light up in white after being fully charged, indicating full charge.
4. When the battery level is lower than 5%, the indicator light enters the red light flashing, and it automatically shuts down after five seconds.
5. Do not use overloaded power outlets, damaged power cords, or adapters, as this may endanger your safety.

Bluetooth Setup Guide

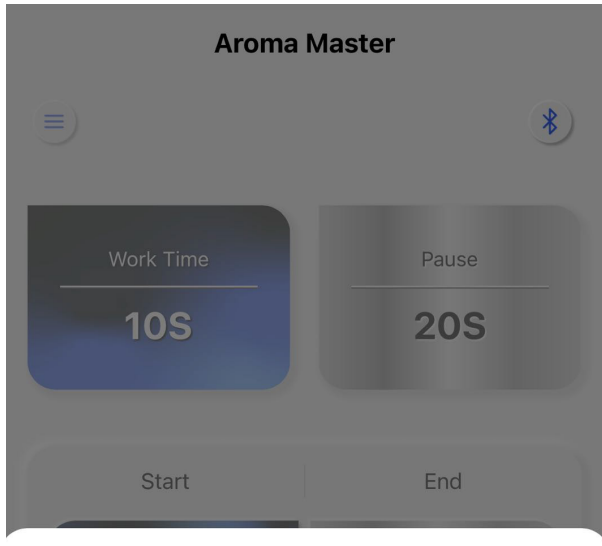

1. Scan the QR code to download and install the application.
2. Ensure that bluetooth and location services are enabled on your phone.
3. Make sure the diffuser has entered bluetooth pairing mode.

Bluetooth Setup Guide

4. Open the application and click the icon in the top right corner to enter bluetooth connection mode.

Bluetooth Setup Guide

6. After the bluetooth connection is successful, some operation buttons of the application will turn blue, and the working schedule of the diffuser can be customized through the application.

Bluetooth Setup Guide

Note:

- 1.If the diffuser is not in bluetooth pairing mode, the application cannot be successfully connected via bluetooth.
- 2.The diffuser can be put into standby mode through the power button of the application.If you want to turn off the diffuser completely, click the diffuser button 1 time in bluetooth pairing mode, and the diffuser shuts down after all the lights go off.

Tips for Proper Usage

Location:

Avoid placing the diffuser near windows or air vents to ensure optimal scent circulation. Position it in an open area to allow the fragrance to flow freely.

Orientation:

Always keep the diffuser upright so that the fragrance oil can diffuse upward into the air.

Fragrance oils:

For best results, we recommend using oil-based essential oils. Using any other oils may affect performance.

Running sound:

Please note that the scent diffuser is not silent; it produces a humming sound that may amplify as the motor operates.

Operating time:

To preserve the motor, we recommend running the diffuser for no more than 8 hours a day.

Charging:

Do not use overloaded power outlets, damaged power cords, or adapters, as this may endanger your safety.

Cleaning Your Diffuser

To ensure optimal performance, clean your scent diffuser every 1-2 months and whenever switching fragrances.

1.Prepare the cleaning solution:

Fill the empty oil bottle that came with your diffuser with about 1/4 inch of rubbing alcohol.

2.Attach the bottle:

Screw the alcohol-filled bottle into the diffuser.

3.Run the diffuser:

Operate the diffuser for 15 minutes to allow the alcohol to circulate through the entire device.

4.Unplug and wipe:

Disconnect the power and turn off the diffuser. Use a damp cloth to wipe the exterior, removing oil stains and fingerprints. Avoid harsh or abrasive cleaning products.

5.Add essential oil:

Refill the bottle with your preferred essential oil.

6.Reassemble:

Follow the installation steps to reassemble the diffuser. Turn on the diffuser and you can enjoy your aroma!

Troubleshooting

Problem	Possible Solution
Not Turning On	Please confirm whether the battery has sufficient power. When the power is below 5%, the indicator light will blink red and automatically shut down after 5 seconds, please charge it.
No Diffusion or Small Diffusion	<ol style="list-style-type: none">1. Please confirm that the diffuser has entered the corresponding gear. If it is in Bluetooth mode, please set the diffuser through the APP to make it work.2. Check whether the atomizer head is blocked.3. Check whether the air duct connected to the air pump is sealed or damaged.
Oil leakage	Ensure that the diffuser is placed vertically.
