Rotates to change modes

Styling Wand Mode / Hair Dryer Mode

Hassle-free curls in seconds.

Uses air power to automatically wrap hair around the barrel, from ends to roots
2 curler barrels to create curls in both directions

Smooths & defrizzes, adds volume & bounce

Smoothing bristles—on the rounded edge for grabbing, smoothing, and shining

Detangling bristles—in the middle for combing and detangling

Smooths & defrizzes, adds volume & bounce

Smoothing bristles—on the rounded edge for grabbing, smoothing, and shining

Detangling bristles—in the middle for combing and detangling

Best for bangs and short/medium length hair

Straighten and smooth all at once

Smoothing bristles—to create added tension for straightening, smoothing, and shining

Detangling bristles—for combing and detangling

Reduces frizz and flyaways

Uses Coanda Technology to automatically attract frizz and flyaways and remove them in seconds

Style and dry at the same time

Rotates for easy styling

Fast, even drying from root to tip

Use the lever to extend or retract the prongs for a customizable airflow

Extended prongs—for longer, thicker hair or reaching and lifting the roots

Retracted prongs—for shorter, finer hair or if the ends need a little extra air

Stretch and lengthen from roots to ends

Uses two rows and two lengths of teeth to stretch and elongate natural curls and coils

*Colors and accessories may vary.

1.25" Auto-Wrap Curlers

Scan the QR code and watch the how-to video to learn how to use your Auto-Wrap Curlers.

Begin with **slightly damp hair**. Separate the **top and bottom sections** of your hair.

Pro Tip: Apply hair products or styling agents as desired.

Recommended
for left side of head
Counterclockwise Curl

Recommended for
right side of head
Clockwise Curl

Select the direction of the curls by choosing the corresponding barrel.

Hold the **middle** of a **½-inch-to-1-inch** section of hair. Let the ends dangle.

Pro tip: Grab a section of hair that is a consistent length.

Once the ends wrap, let go of the hair section and slowly **bring the barrel directly to the roots**, allowing the hair to continue to wrap itself around the barrel. **No need to twist the wand.**

Turn on the styling wand. **Bring the barrel behind the dangling ends**. The ends will automatically **wrap** around the barrel—**no need to manually wrap**.

For best results and to avoid heat damage, **hold the barrel in place for 10 seconds**, then press and hold the **Cool Shot button for at least 10 seconds**. Repeat as needed until hair is dry. **Turn off the styling wand** and pull the barrel straight down to reveal your curl.

Pro Tip: Use a setting or holding spray as desired for an even longer-lasting look.

Additional Styling Tips:

- If it's difficult for your hair to wrap around the barrel, use smaller sections of hair and make sure it isn't too wet.
- Use sectioning clips to prevent unwanted hair from being wrapped around the barrel.
- Test different moisture levels to understand the level of moisture that works best for your hair type.
- For curly or coily hair, prep your hair for curling by lengthening it using the paddle brush or oval brush.

Recommended Setting:

temp

Oval Brush

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair**.

Pro Tip: Apply hair products or styling agents as desired.

Section your hair as desired. For voluminous blowouts, start by placing the round brush **under the hair close to the roots**.

Pro Tip: For even more volume, hold the brush under hair close to the roots for 3 seconds before brushing outward.

Roll the brush outward from the roots to the ends to engage the bristles and gently grip the hair.

Pro Tip: For extra volume, brush your hair in an upward direction.

Repeat on remaining sections until hair has been dried into a bouncy, voluminous style.

Pro Tip: Set your style and help reduce frizz by pressing the **Cool Shot button**.

Additional Styling Tips:

- If you have fine hair, try reducing the airflow to help cut down on frizz.
- If you have thick hair, try increasing the heat for even faster results.
- If you have curly or coily hair, try increasing the heat to help achieve a straighter style.
- For an added curl, place the brush under the ends of the hair and roll the brush toward the roots to engage the bristles. Twist the hair off the brush to release the curl.

Recommended Setting:

temp

Pro tip: Works great on bangs and short hair.

Round Brush

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair**.

Pro Tip: Apply hair products or styling agents as desired.

Section your hair as desired. For voluminous blowouts, start by placing the round brush **under the hair close to the roots**.

Pro Tip: For even more volume, hold the brush under hair close to the roots for 3 seconds before brushing outward.

Roll the brush outward from the roots to the ends to engage the bristles and gently grip the hair.

Pro Tip: For extra volume, brush your hair in an upward direction.

Repeat on remaining sections until hair has been dried into a bouncy, voluminous style.

Pro Tip: Set your style and help reduce frizz by pressing the **Cool Shot button**.

Additional Styling Tips:

- If you have short hair, try reducing the airflow to help cut down on frizz and flyaways.
- If you have thick hair, try increasing the heat for even faster results.
- If you have curly or coily hair, try increasing the heat to help achieve a straighter style.
- For an added curl, place the brush under the ends of the hair and roll the brush toward the roots to engage the bristles. Twist the hair off the brush to release the curl.

Paddle Brush

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair**. **Section your hair** as desired.

Pro Tip: Apply hair products or styling agents as desired.

For a smooth, sleek style, start by **placing the brush close to the roots** to engage the detangling bristles.

Brush down your hair, making sure to engage the smoothing bristles, and gently grip the hair.

Pro Tip: Hold the ends of your hair while brushing for added tension and smoothing.

Repeat on remaining sections until hair has been dried into a smooth, straight style.

Pro Tip: Set your style and help reduce frizz by pressing the **Cool Shot button**.

Additional Styling Tips:

- If you have fine hair, try reducing the airflow to help cut down on frizz.
- If you have thick hair, try brushing smaller sections for smoother results.
- If you have curly or coily hair, try repeatedly brushing smaller sections and increasing the heat to help achieve a straighter style.
- For added volume, place the brush under the hair section close to the roots and brush upward using a rounding motion.

air

temp

FrizzFighter™ Finishing Tool

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **completely dry hair** that has been styled with a concentrator or style brush.

Pro Tip: Works best on straight or straightened hair.

Start at the top of your head, **close to the roots**. Hold until the hair attracts.

Slowly glide the FrizzFighter™ Finishing Tool down the length of your hair. **Gently touch your hair** with the tool—no need to press it against your head.

Repeat around your head.

Additional Styling Tips:

- If you have thinner/finer hair you can decrease the airflow to help reduce flyaways.
- If you have thinner/finer hair you can decrease the heat.

Recommended Setting:

air

temp

Styling Concentrator

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair**.

Pro Tip: Apply hair products or styling agents as desired.

Section your hair as desired and start styling with a round brush. **Rotate the concentrator** so airflow is always in line with the round brush.

Apply heat in a downward motion for smoothing.

Pro Tip: Apply heat at ends for shaping and bending.

Finish styling by setting shape at ends and pressing the **Cool Shot button**.

Additional Styling Tips:

- If you have thinner/finer hair, try reducing the airflow to help cut down on frizz.
- To create a curl, wrap your hair around a round brush and dry it in place using the concentrator.
- For added volume, place a round brush under the roots and brush upward while drying with the concentrator.
- For an added curl at the ends, roll the ends of your hair onto a round brush and dry in place using the concentrator.

Recommended Setting:

temp

Curl-Defining Diffuser

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with towel-dried hair. Working around your head, bunch curls from ends between the petals of the diffuser.

Pro Tip: Apply curly hair products or styling agents as desired to wet hair.

Bring the diffuser up to the roots. Pause and hold.

For more volume, slide the lever to **extend prongs to lift roots higher**

Pro Tip: Gather hair in diffuser with prongs retracted, then extend them when you reach the roots to increase grab and maximize airflow.

If desired, **flip upside down and bunch from below** for extra volume.

Pro Tip: Keep the integrity of your natural curls by switching between Low temp and the **Cool Shot button**.

Additional Styling Tips:

- Apply curly hair products to wet hair before drying to help define your curls and cut down on frizz.
- If you have thick hair, try increasing the heat for even faster results.

Recommended Setting:

temp

Wide-Tooth Comb

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **towel-dried hair**. **Section your hair** as desired. Make sure to **detangle each section** to help prevent snagging.

Pro Tip: Apply your favorite styling products as desired.

Slowly **comb your hair from the roots to the ends**. Continue combing the section until hair has been **stretched and dried**.

Pro Tip: Hold the ends of your hair while combing for added tension and length.

Repeat on remaining sections. Press the **Cool Shot button** to lock in your style.

Pro Tip: Detach and re-orient the comb as needed to easily reach all areas on your head.

Continue styling your stretched hair as desired.

Additional Styling Tips:

- Try using the comb while in styling wand mode for more styling versatility.
- For added volume at the roots, comb through hair in an upward direction.
- Decrease the heat to help maintain hair texture while stretching.
