CHEVY NOTES:

2- Vehicles equipped with 4.3L V6 will get ¼" to ½" less lift in front due to engine weight

3-Only fits vehicles equipped with 4.3L V6.

DODGE NOTES:

2-Extended cab models will get approximately ½" less lift due to front end weight.

3 –Upper control arms are highly recommended to achieve maximum clearance for suspension movement.

BODY LIFT KIT FOOTNOTES

- Front bumper brackets are included in this kit.
- Does not fit models equipped with automatic transmission.
- Optional front bumper raising kit is required to raise the front bumper (part #BLBKIT2 or #BLBKIT3).
- This kit will fit only vehicles equipped with a 2-piece collapsible steering shaft.
- It may be necessary to drill the front two body bushing sleeves out to 1/2" for new bolt clearance.
- Front and rear bumper brackets are included in this kit.
- Modification to the front frame horns will be required to raise the front bumper using the bumper brackets included.
- Will not fit 2-wheel drive with power steering.
- Will not fit 2-wheel drive with power steering gearbox close to firewall.
- Installation on models equipped with v-8 will require replacement of lower
- Installation on vehicles equipped with 6 cylinders or V-6 will require replacement of lower radiator hose and fan.
- It will be necessary to drill out some of the body bushings to accommodate larger bolts.
- Front bumper brackets will need to be modified for use on 2" kit.
- Will not fit vehicle equipped with diesel engine.
- Steering extension included.
- Vehicles equipped with Vortec V-6 may require modification of the air intake hose.
- 3" kit includes front and rear bumper brackets; 2" kit includes front bumper brackets only.
- Rear bumper can be raised using the stock bumper brackets.
- Installation on vehicles with air-conditioning will require extensive modification to the radiator-mounting flange.
- Manual transmission models will require part #BL3700 Shift Extension.
- Rear bumper brackets are to enhance appearance only; bumper cannot be used for towing.
- Full-size four leaf spring models only!
- 94-99 Dodge ram pickup rear bumper raising kit Part #60023.
- Will not fit models equipped with adjustable pedal package.
- Rear bumper brackets are available and sold separately for this application
- Front and rear bumper brackets are NOT included in this kit
- Front bumper can be raised using stock bumper brackets
- Manual transmission models will require part # BL4700 shift ext.
- Other products also available.
- Will not fit vehicles equipped with gasoline engines.
- S-15 Blazer rear bumper with factory tow hitch can not be raised.
- Requires cutting the lower radiator core support and installing new brackets provided.
- 2006 manual transmission require kit # SE9627 shift extension
- Automatic transmission models require kit # 9628 ext. bracket
- Requires cutting the front bumper facia to allow clearance for front frame horns
