(4) Installation instruction:

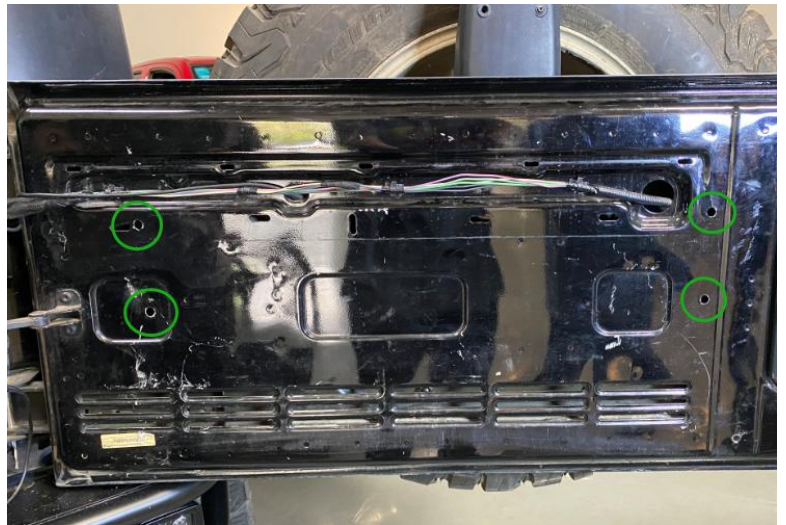

Step 1: Open the tailgate in preparation for installing our product.

Step 2: Unpack the product, take out the positioning paper from the package, place the positioning paper in the middle, facing downward (as long as it does not affect the closing of the tailgate after installation). Fix it with masking tape.

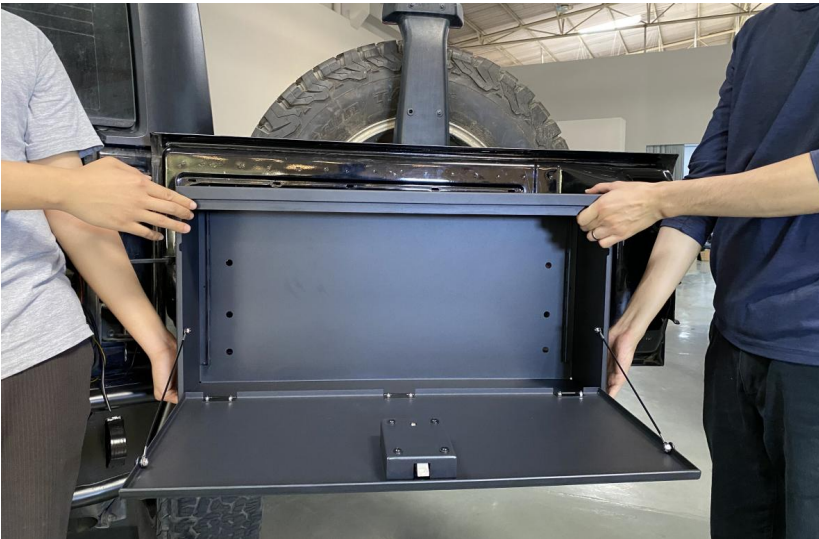

Step 3: First use an 9.2-9.5mm drill bit to drill the four holes marked on the positioning paper, and use a 6mm rivet nut tool to dive into the rivet nut.

Step 4: Lift the storage box and install it into the tailgate using M6*20 screws
(The two lower screw holes do not need to be used).

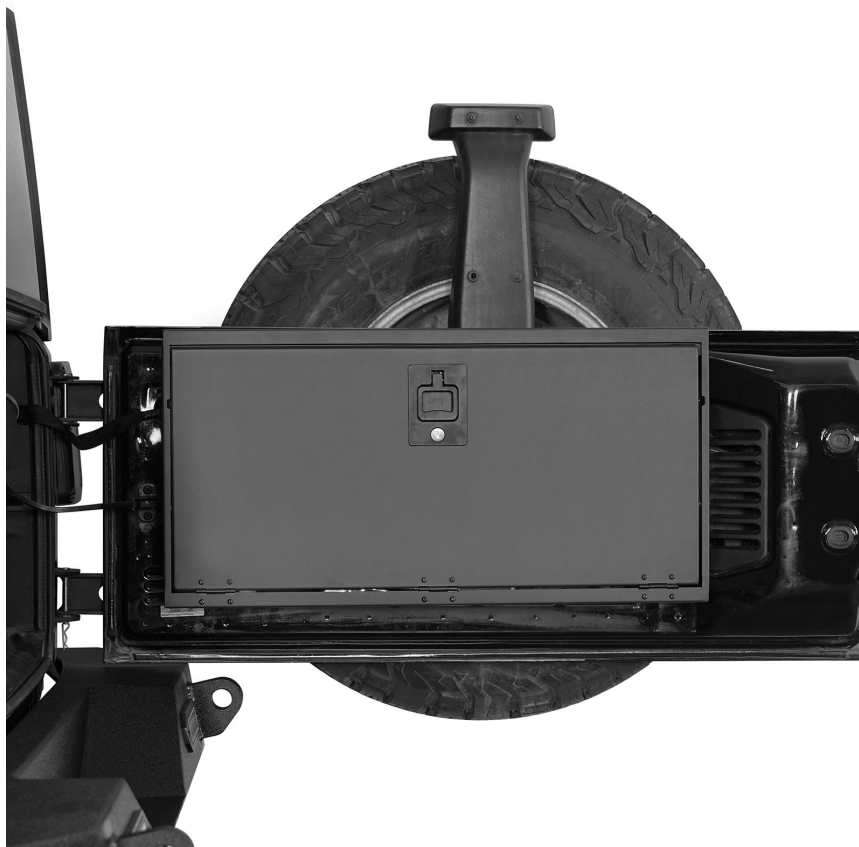

Step 5: If you need to use a net, you can insert the hooks into the internal circular holes.

Step 6:

The installation is complete. We hope you enjoy a wonderful off-road life with this quality Hooke Road product!
