1756L82ES

Allen-Bradley GuardLogix 5582S Processor 5Mb Stabdard 2.5Mb Safety

Component type	PLC CPU-module
Range	Control GuardLogix 1756
Model	N/A
Product status	Existing

The Allen-Bradley GuardLogix programmable controllers are designed to provide a comprehensive control solution for critical applications. These controllers are ideal for high-performance, safety and security applications. The integrated safety and security features, such as password protection and encryption, ensure the safe operation of the system and protect against unauthorized access.

COMMUNICATION	Max. number of EtherNet/IP nodes	175
	Can be programmed with Connected Components Workbench	No
	Can be programmed with Studio 5000 Logix Designer	Yes
	Can be programmed with RSLogix 500	No
CONSTRUCTION	Number of analogue outputs	4000
	Number of analogue inputs	4000
	Number of digital inputs	128000
	Number of digital outputs	128000
	Memory size	5000 kByte
	Suitable for safety functions	Yes
