User Manual

360° Rotatable Bicycle Phone Holder

1. Part Name

2. Loosen the fixing clamp and install it to the handlebar.

Note: Please add or remove the silicone pads according to the diameter of the handlebars, which also can cut unnecessary parts.

3. Insert the rotating part of the base into the fixed slot on the back along the direction shown in the picture below.

4. Unlock the security lock on the back of the phone holder, push the upper arm of the phone holder with the top of the phone, and then put the phone in.

5. After the phone is fixed, pull the security lock on the back to the locked state.

Warm Tips

1. This bike phone holder can only support phones up to 15mm thick (including the phone case).
2. Please make sure the security lock is locked after you set your phone in the holder.

Manuel de l'Utilisateur

Support Téléphone Vélo Rotatif à 360°

1. Nom de la pièce

2. Desserrez la pince de montage et installez-la sur le guidon.

Remarque: Veuillez ajouter ou retirer les coussinets en silicone en fonction du diamètre du guidon, ce qui peut également couper des pièces inutiles.

3. Insérez la partie rotative de la base dans la fente fixe à l'arrière dans la direction indiquée sur l'image ci-dessous.

4. Déverrouillez le verrou de sécurité à l'arrière du support de téléphone, pincez le bras supérieur du support de téléphone avec le haut du téléphone, puis insérez le téléphone.

5. Une fois le téléphone réparé, tirez le verrou de sécurité à l'arrière vers l'état verrouillé.

Conseils Chaleureux

1. Ce support pour vélo ne peut supporter que des téléphones jusqu'à 15mm d'épaisseur (y compris la coque du téléphone).
2. Veuillez vous assurer que le verrou de sécurité est verrouillé après avoir inséré votre téléphone dans le support.

Benutzerhandbuch

360° drehbarer Fahrradtelefonhalter

1. Name des Teils

2. Lösen Sie die Befestigungsklemme und installieren Sie sie am Lenker.

Hinweis: Bitte fügen oder entfernen Sie die Silikonpolster entsprechend dem Durchmesser des Lenkers, wodurch auch unnötige Teile geschnitten werden können.

3. Setzen Sie den rotierenden Teil der Basis in den festen Schlitz auf der Rückseite entlang der Richtung ein, die im Bild unten gezeigt wird.

4. Entriegeln Sie das Sicherheitsschloss auf der Rückseite des Telefonhalters, drücken Sie den Oberarm des Telefonhalters mit der Oberseite des Telefons und legen Sie das Telefon dann hinein.

5. Nachdem das Telefon repariert ist, ziehen Sie das Sicherheitsschloss auf der Rückseite in den gesperrten Zustand.

Warme Spitzen

1. Dieser Fahrradtelefonhalter kann nur Telefone bis 15mm dick (einschließlich der Telefonhülle) unterstützen.
2. Bitte stellen Sie sicher, dass das Sicherheitsschloss verriegelt ist, nachdem Sie Ihr Telefon in die Halterung gesetzt haben.

Manuale D'uso

Porta Cellulare Bici Girevole A 360 Gradi

1. Nome Delle Parti

2. Allentare il morsetto di fissaggio e installarlo sul manubrio.

Nota: Si prega di aggiungere o rimuovere i cuscinetti in silicone secondo il diametro del manubrio, che può anche tagliare le parti non necessarie.

3. Inserire la parte rotante della base nella fessura fissa sul retro lungo la direzione mostrata nell'immagine qui sotto.

4. Sbloccare il blocco di sicurezza sul retro del supporto del telefono, spingere il braccio superiore del supporto del telefono con la parte superiore del telefono, e poi mettere il telefono dentro.

5. Dopo che il telefono è stato fissato, tira il blocco di sicurezza sul retro fino allo stato bloccato.

Suggerimenti Per Il Caldo

1. Questo portacellulare da bicicletta può supportare solo telefoni fino a 15 mm di spessore (compresa la custodia del telefono).
2. Si prega di assicurarsi che il blocco di sicurezza è bloccato dopo aver impostato il telefono nel supporto.

Guía Del Usuario

Soporte Giratorio Para Teléfono De
Bicicleta De 360 Grados

1. Nombre de La Pieza

2. Afloje la abrazadera de fijación e instálela en el manillar.

Nota: Agregue o quite las almohadillas de silicona según el diámetro del manillar, que también puede cortar piezas innecesarias.

3. Inserte la parte giratoria de la base en la ranura fija en la parte posterior en la dirección que se muestra en la imagen a continuación.

4. Desbloquee el bloqueo de seguridad en la parte posterior del soporte del teléfono, empuje el brazo superior del soporte del teléfono con la parte superior del teléfono y luego coloque el teléfono adentro.

5. Una vez que el teléfono esté reparado, jale el candado de seguridad en la parte posterior al estado bloqueado.

Consejos Cálidos

1. Este soporte para bicicleta solo admite teléfonos de hasta 15mm de grosor (incluida la carcasa del teléfono).
2. Asegúrese de que el bloqueo de seguridad esté bloqueado después de insertar su teléfono en el soporte.
