Welcome!

Thank you for purchasing the Atomic Digital Wall Clock, designed for years of trouble-free performance. Please read this important note about setup. Thank you!

IMPORTANT:

After installing batteries, the clock will look for the Atomic time signal for 7 minutes. The buttons will not function during the signal search.

Options:

- Press the **WWVB SEARCH** button once to stop the Atomic time signal search.
- Manually set the time, date, and time zone.
- The clock will search for the Atomic time signal again after midnight.
- Press **WWVB SEARCH** button anytime, to start an Atomic signal search.

For information about Atomic Time, visit:

www.nist.gov/pml/div688/grp40/wwvb.cfm

Get Started

1. Insert 2 new AA, Alkaline batteries into the clock. Observe the correct polarity.

2. Wait for the clock to set itself to Pacific time zone (default) then press the **ZONE** button to select your time zone.

OR

3. Stop the initial Atomic Time Search and set the time manually.

Settings: Time, Date, etc.

- Hold the **SET** button to enter time set mode.
- Press the **▲** or **▼** buttons to adjust values.
- Press **SET** to confirm adjustments and move to next item.

Settings order:

1. 12/24 Hour Format, 2. Hour, 3. Minutes, 4. Year, 5. Month, 6. Date, 7. Daylight Saving Indicator (ON to automatically change)

Press **SET** to exit, or wait 30 seconds without pressing buttons to return to the normal time display.

12/24 Hour Time Format

Set Hour and Minutes

Set Year, Month, & Date

Daylight Saving Time Indicator

Fahrenheit/Celsius & Time Zone Settings

Choose Fahrenheit/Celsius

- Press the **°F/°C** button to switch from Fahrenheit to Celsius temperature display.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

All rights reserved. This manual may not be reproduced in any form, even in part, or duplicated or processed using electronic, mechanical or chemical process without the written permission of the publisher.

This booklet may contain errors or misprints. The information it contains is regularly checked and corrections are included in subsequent editions. We disclaim any responsibility for any technical error or printing error, or their consequences.

All trademarks and patents are recognized.

Canada Statement

This device complies with Industry Canada's licence-exempt RSSs.

Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.
