Before using the Unit

What's in the box

Confirm the supplied standard accessories.

Remote control unit x 1

Battery (CR2025/2032) for remote control unit x1

(The battery has been installed in the remote control unit when shipped from the factory.)

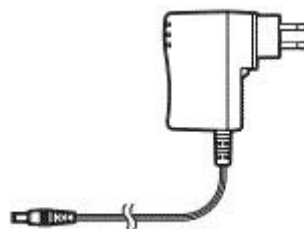

Rechargeable par light x 1

Fixing Screws x 2

Mounting Brackets x 2

Dedicated AC adapter x1

Owner's manual x 1

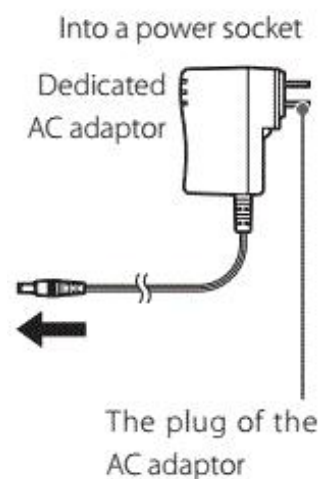

Battery replacement time

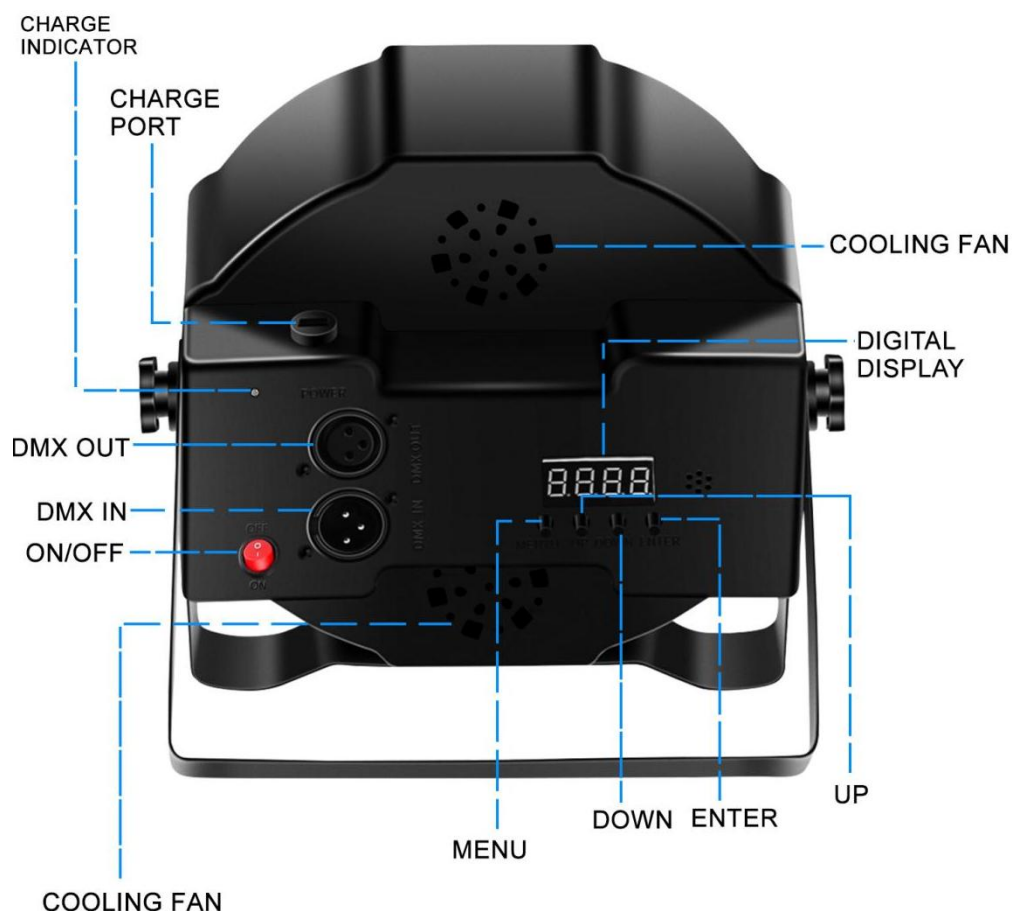

If the distance required between the remote control unit and main unit decreases, or the remote control unit's button don't work, the battery is exhausted. In this case, replace the battery with a new one.

Connecting the AC adaptor

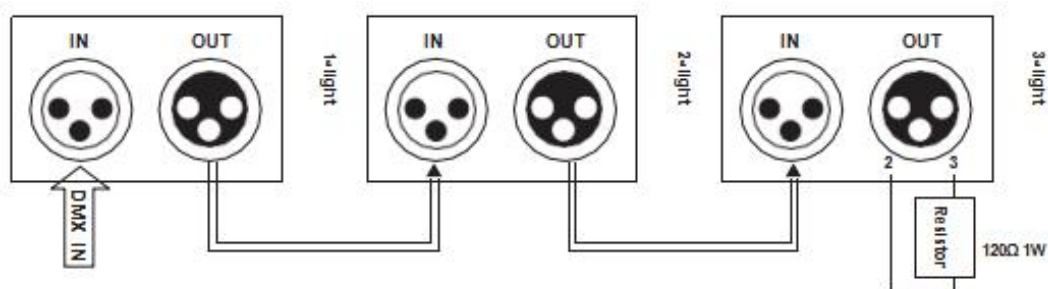

After connecting the charging port to the dedicated AC adaptor cord, plug the adapter into an outlet. When it is charging, the indicator will light up Red light. When it is full, the indicator will turn to Green light.

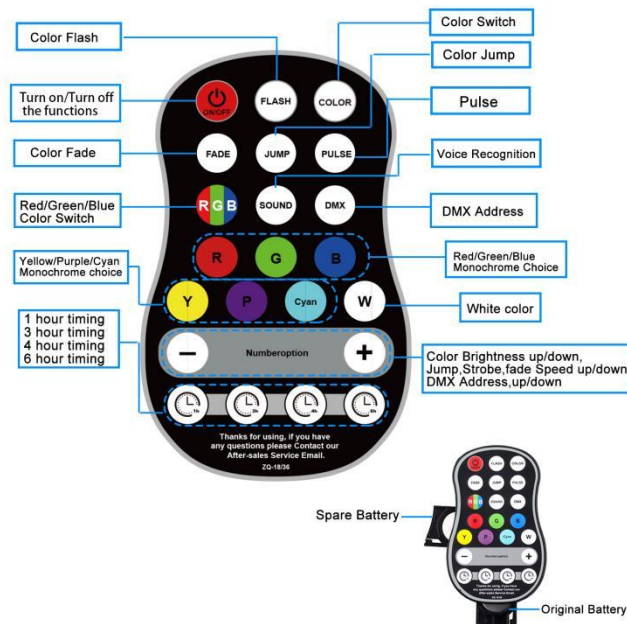

Connecting the DMX signal

The light is available to receive the DMX512 signal, connect the DMX connector to the panel which marked with "DMX IN", and connect it to the next light. then, connect to the "DMX IN" of next light from the "DMX OUT". The DMX signal terminator is recommended when the lighting signal is connecting. It will avoid to interfere the signal which caused by the electrical noise DMX terminator is a XLR connector, connect with a 12002 resistor between the pin 2 and pin 3 of the XLR connector, and connect it to the OUTPUT socket of the final light. see picture:

Remote Control Unit

Notes on using the remote control unit

- Even if the remote control is used within its effective operation range (10m / 35 feet), the unit might not response the remote if there are any obstacles between them.

Before using the remote control

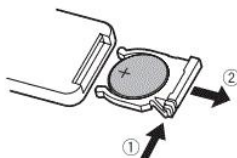

When you use the remote control for the first time, pull out the insulation sheet from the rear.

Battery replacement

The battery has been installed in the remote control unit when shipped from the factory.

To replace the battery, pull out the battery tray from the rear, put the lithium-ion battery (CR2025/2032) in with the “+” side facing up, and insert the tray again.

LCD digital display function

Key-press	Description
