Installing the Latest Software On the fenix 7 Series

Keeping your software up to date will ensure that you get the best performance and latest features. Methods for updating software are described below.

For information on updating compatible mapping, see Related at the bottom of the page.

Installing Software Updates

Garmin Connect App

The Garmin Connect app will download software updates automatically behind the scenes while your device is connected to your mobile phone. There are no steps required for you to take to get the latest software. Generally, any released updates will take up to a week to download before automatically, or prompting, to install on your device.

Search for, and download, the Garmin Connect app in your phone's application store to get started. For more information on the Garmin Connect app, see - [Garmin Connect app on Garmin.com](#).

Garmin Express

Garmin Express provides the ability to check for, and download, software updates each time you connect your

6. To access any support videos for your purchased Garmin device, follow these steps:

Click on the **Videos** tab -> This will take you to the latest videos available for your purchased Garmin device
