# ASSEMBLY

## Step 1:

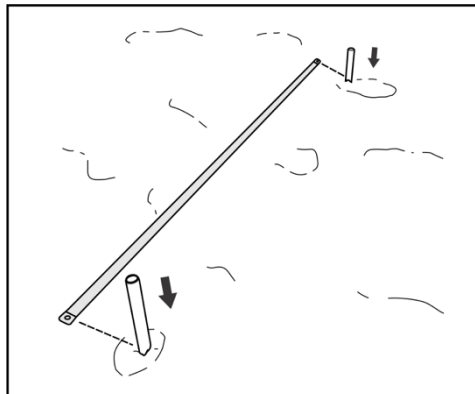

Open the storage bag and remove the shade cloth and all the accessories.

## Step 2: (Figure 1)

- Unfold the crossbar and use the eyelets as a guide for how wide the upright supports need to be spaced apart.
- Insert the two upright supports into the sand.

**Note:** Ensure the supports are buried firmly enough to keep the upright poles in place.

**Figure 1**

### Step 3: (Figure 2)

- Insert the two upright poles into the upright supports.
- Attach the crossbar to the top of the two upright poles.

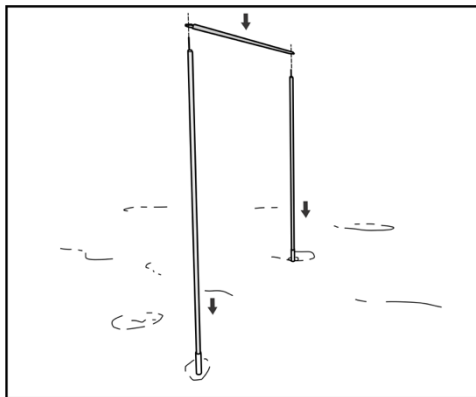

Figure 2

### Step 4:

- Place the shade cloth over the crossbar and insert the spigots on the top of upright poles into the eyelets on the shade cloth.
- Using either the plastic or steel pegs, stretch out and secure the guy ropes to the sand.

**Note:** The shade cloth can be setup in either an “L” or an “A” shape depending on which eyelets the spigots are inserted into (Figures 3 & 4).

**Note:** If the sand is particularly soft, use the supplied mallet to bury the pegs deeper into the sand until the shade cloth is secure.
