2.5G WAN

OPTION 1 - D-LINK WI-FI APP SETUP

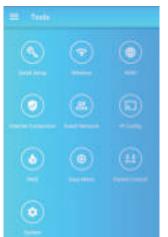

Step 1. Install the D-Link Wi-Fi Assist App.

 ${\bf Step~2}. Connect your phone to your Router's Wi-Fi. The Wi-Fi Name and password are printed on the label at the back of the Router.\\$

Step 3. Open the D-Link Wi-Fi Assist app and tap on the Router icon. Access the setup options by tapping on the Settings icon.

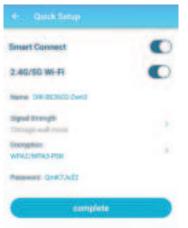

Step 4. Tap on Quick Setup.

Select your Internet Connection type and enter the required details.

Enter your desired Wi-Fi Name and assign a secure password to your Wi-Fi.

After completing the Quick Setup, the Router will restart.

Reconnect to your Router's Wi-Fi using the new name and password.

OPTION 2 - WEB BROWSER SETUP

You can also use a Web browser on your computer or on your phone to set up the Router.

Step 1. Connect your computer or phone to your Router's Wi-Fi. The Wi-Fi Name and Password are printed on the label at the back of the Router. Alternatively you can connect you computer to one of the Router's LAN ports using a network cable.

Step 2. Open your Web browser and enter http://192.168.0.1 in the address bar. You will be prompted to enter the Router's admin password – the factory password is printed on the label at the back of the Router.

Step 3. The Quick Setup Wizard will take you through the initial Router set up. Select your Internet Connection type and enter the required details.

Enter your desired Wi-Fi Name and assign a secure password to your Wi-Fi.

After completing the Quick Setup Wizard, the Router will restart. Reconnect to your Router's Wi-Fi using the new name and password.
