About Us

As one of the pioneers of the smart home industry, BroadLink is always dedicated to providing everyone with advanced technologies, quality products, and excellent user experience.

Since the first universal remote, smart plug, and air sensor debuted in 2013, we have launched a full range of smart devices, making people's daily life more convenient, fun, and interactive. We are also expanding our product line, allowing people to turn their entire home into a smart one with the BroadLink ecosystem.

In 2022, with patent FastCon BLE technology, BroadLink is determined to lead the smart home revolution and improve the smart home experience in a much simpler, more flexible, and cost-effective way.
