Note

For this product, tubes and joints are connected using button clips. Button clips are already inserted inside tubes. When connecting, press the button clip and insert one tube into the joint. Forcing the tubes in might also work but you are risking damaging the Clip. Pay attention to the orientation of Part P.

Note

There are two pairs of holes on the vertical joint of Part C. When connecting Part 3 to Part C, make sure that the Button Clip is pointing to the left and right, like what's shown on the left.

Note

Do not worry too much about the exact location of D3 and D6. Just make sure D6 is completely covered by the two pairs of H.

Notice that on the two detailed illustrations above, screw L is not used. This is so that you have some wiggle room adjusting D3 and D6. Once you are happy with the result, use screw L to secure H.
