SAFETY AND MAINTENANCE

Before using your Nautica USB-A Dual Port Car Charger, read the following precautions carefully to ensure optimal product performance.

Do not expose your car charger and its electronic parts to extremely hot (fire, direct sunlight, etc.) or cold conditions.

Extreme temperatures may cause the unit to explode or overheat which may in turn result in lower performance and a shorter life span. Also avoid applying high pressure or penetration to the unit with sharp objects.

Do not attempt to modify, repair, or replace any components of your Nautica USB-A Dual Port Car Charger. Only authorized dealers or service centers can disassemble the product.

If any parts of your product require replacement for any reason, including normal wear and tear or breakage, please contact us.

Keep the product away from liquids as exposition to liquids may cause your wireless car charger to short-circuit. In case of exposition to liquid, do not operate the charger.

Keep your product away from the reach of children. This product is not a toy

WARRANTY INFORMATION

We do our best to make sure that this product is free from defects in materials and workmanship for a period of 1 year.

The following conditions must be met for your warranty claim to be approved:

You must have purchased the product from a Nautica or Technofashion authorized dealer.

You must provide proof as to the date of purchase from the Nautica or Technofashion authorized dealer.

You must have used the product only as intended and in accordance with the product's care instructions.

Within 12 months after the purchase, in case the product is determined to be defective (at the date of original purchase) due to improper materials or workmanship, you are entitled to free repair or exchange of goods. The product should be returned to Technofashion.

The warranty does not cover defects caused by third-party modifications, repairs or replacement parts.

Punctures, scratches, normal wear and tear and the natural breakdown of colors and materials over extended time and use are not warranted. Warranty applies to the USA only.

We will make every effort to replace limited edition or discontinued products but cannot guarantee availability for replacement.

Any limited edition or discontinued product still under its applicable warranty that cannot be replaced with an identical product will be replaced with the equivalent model based on availability.

We may make changes to products and designs in the time you purchased your product and submitted a warranty claim.

Products repaired or replaced under this warranty may or may not incorporate these changes.

SUPPORT

For any questions, email us at support@technofashion.com

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The distance between user and products should be no less than 7.87 in / 20 cm
