

POSTER LED DISPLAY SOLUTION

Cloud LED Poster Display

Poster LED Display Player is a specially designed product targeting for indoor HD LED advertising player with highly integrated hardware and outdoor led display player with high brightness and easy installation, ultra-thin and light body, which can be your first choice to achieve perfect led advertising display effect.

LED Poster Display embodies features including various installation solutions, easy operation, multiple communication modes, high brightness, low power consumption and ultra-thin body to ensure stable and high-quality display effect even in bright-light venues. It is a new product that overturns traditional LCD ad player (high cost, low-quality picture, uneven brightness, heavy body and high energy consumption), which can be widely installed in hotels, restaurants, shopping malls, banks, government agencies, hospitals and so on.
