Orion Mini Geared Head Setup

- Detach half bowl from 100mm bowl base.

- Now attach half bowl to the bottom of Orion mini and secure it with the help of wrench (Not Included).

- Here is the final view of bowl attaching.

- Loose screw and washer from the side ends Orion mini with the help of provided Allen key.

- Now attach crank handle after removing screw & washer.

- Secure it by attaching screw and washer with the help of provided Allen key.

- Tighten the ratchet knob on the plate to secure the camera setup.

- Insert the thread of the Orion Mini Geared Head into the 100mm bowl tripod stand (Not Included).

- Secure the thread from the bottom with the tightening knob.

- Loosen the ratchet knob on the top plate of the Geared Head and press the push button on the other side.

- Slide out the top plate.

- Attach the plate to the camera base (Not Included) and tighten its bolt with a screwdriver (Not Included). Then, slide the plate on the top of the Geared Head.

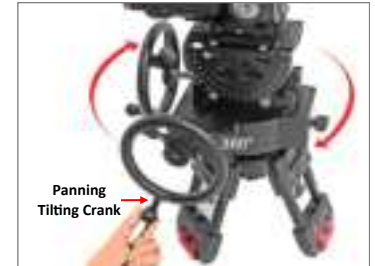

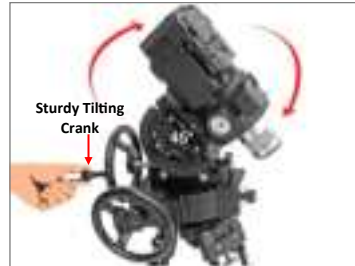

NOTE: Orion Mini Gear Head works with most of the DSLR Video Cameras.

- Tighten the ratchet knob on the plate to secure the camera setup.

NOTE: The Geared Head has sturdy cranks for Panning & Tilting. The tilting crank offers one-axis movement and allows 45° tilting on each side. The panning crank offers 360° panning for accurate panoramic shots.

- There's a Backlash Control Knob present on the geared head. Tightening the knob will make the panning crank handles tight, and the handles will move smoothly when the knob is loosened.

- Orion Mini Geared Head Setup is ready to use.
