Wireless Bluetooth Adapter Specification

LED Status Indicator

Adaptor LED indicator	light flashing quickly	The device searches for pairing status
	light flashing slowly	The connection is successful

Keypad

Adaptor control keys	Double click on the key	The device enters the pairing state
	long press 5 seconds	Clear pair record

Bluetooth Connection

Once paired with a Bluetooth device, you can use the speakerphone for audio call. To pair your Bluetooth device with the speakerphone, follow steps below:

1. Press and hold the “” button until the Bluetooth Indicator(Y type indicator) flashes green light. The speakerphone is under Bluetooth pairing mode.
2. Turn on the Bluetooth function of the mobile phone and click search.
3. Search Bluetooth with your Bluetooth device and connect.
4. When the Bluetooth was set up, the Bluetooth indicator(Y type indicator) will keep lighting on. Then you can use the speakerphone for audio call.
5. Press the “” button to turn off Bluetooth.

 **Note:**
when Bluetooth fails to match within 40 seconds, Bluetooth needs to be restarted.

In/out Connection

Use a 3.5mm 4-strand cable to connect your phone or PC device to the "I/O" port of the speakerphone.

If the device connection port is a 3.5mm 3-strand port, you need a transfer adapter for connecting. Insert audio transfer plug into the "I/O" port of NAJA SY200.

Connect the microphone port and speaker port of Audio Transfer plug to the IN/OUT port of the PC or video conferencing system with two 3.5mm 3-strand cable.

 **Note:**
Please set the phone LINE IN/OUT mode to “PC Mode” when the device is PC or video devices. Or set the phone LINE IN/OUT mode to “Mobile Mode” while connecting a smartphone.

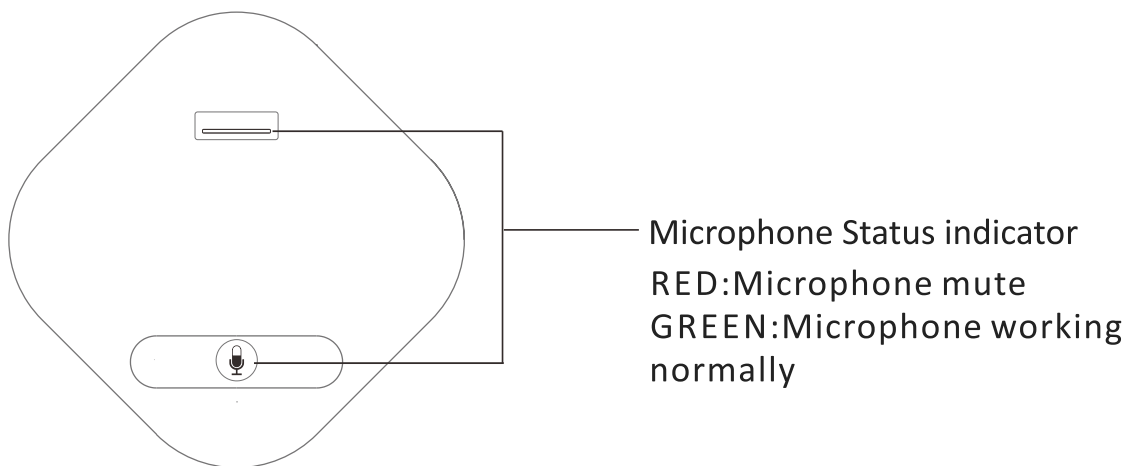

Installation and Use of Extension Unit(Optional)

Please use the extension unit when you need a larger connection or essential meeting.

1. Connect EXT interface of the main speakerphone unit and extension unit by using the original RJ45 cable. Connect to PC, communication equipment or power supply via USB cable. After ensuring all connections are correct, switch on power supply.

2. The extension unit has a speaker and microphones system. Two NAJA SY200 units simultaneously working in same space, double the cover space of meeting room and the number of participants. The sound of the main unit and the extension unit are completely synchronized, and they can control each other at the same time.

3. The extension unit has mute switch and status indicator. The indicator is green when microphone works normally, and red when mute.

Note:

To normally use and protect the extension unit, it's necessary to check good connection of main unit with extension unit before power on

Warranty

IM PORTA NT Satisfactory evidence of the original purchase is required for warranty service. Please refer to our website www.s-track.cn for any details or warranty duration offered in addition to those contained below.

Terms of Warranty

S-TRACK warrants to the original retail purchaser only that the HD audio and video conferencing system("the Product"), will be free from defects in materials and craftsmanship for the duration of the warranty period, subject to the limitations and exclusions set out below.

Warranty Period

If a warranty claim is made, this warranty will not apply if the Product is found by S-TRACK to be:

- (A) Damaged or not maintained in a reasonable manner or as recommended in the relevant S-TRACK Owner's Manual;
- (B) Modified, altered or used as part of any conversion kits, accessories or any configurations not sold by S-TRACK. improperly installed contrary to the instructions contained in the relevant Owner's Manual;
- (C) Repaired by someone other than an authorized S-TRACK Repair Agent in relation to a defect or malfunction covered by this warranty;
- (D) Used in conjunction with any equipment, parts or a system not manufactured by S-TRACK.

Parts Covered

This warranty covers the Product and included accessories.

User-generated Data

This warranty does not cover any claimed loss of or damage to user-generated data (including but without limitation phone numbers, addresses and images) that may be stored on your Product.

Statement of Remedy

If the Product is found not to conform to this warranty as stated above, the Warrantor, at its discretion, will either repair the defect or replace the Product without any charge for parts or service. This warranty does not include any reimbursement or payment of any consequential damages claimed to arise from a Product's failure to comply with the warranty.

Our goods come with guarantees that cannot be excluded under the local Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Procedure for Obtaining Warranty Service

Depending on the country in which the Product was first purchased, if you believe that your Product does not conform with this Warranty, you should deliver the Product, together with satisfactory evidence of your original purchase (such as a legible copy of the sales docket) to S-TRACK at the addresses shown below. You should contact S-TRACK regarding any compensation that may be payable for your expenses incurred in making a warranty claim. Prior to delivery, we recommend that you make a backup copy of any phone numbers, images or other data stored on your Product, in case it is lost or damaged during warranty service.

Warning

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
