Screw

**W-A (x12)**  
ST6x30mm  
Stainless Steel  
Screw

## Tools Needed:

**Pencil**

**Phillips  
Screwdriver**

**Power  
Drill**

**1/8" (3mm)  
Drill Bit**

**Level**

## Weight Capacity:

# Installation Locations

*TV mount can be installed on the inside or outside of an RV or camper wood stud walls.*

If mounting on an RV, locate the designated mounting location which should be pre-labeled by manufacturer as **TV BACKER** or **TV MOUNTING LOCATIONS**. Refer to RV manufacturer for more information.

**IMPORTANT NOTE:** TV should be ALWAYS be removed from wall and securely stowed away while RV/camper is in motion.

# Assembly Steps

## STEP 1

Hold Wall Plate **(A)** up to the desired mounting location and mark hole locations using a pencil. Use of a level is highly recommended. If mounting in an RV make sure the trailer is level before leveling the mount.

Drill marked holes 1.2" (30mm) deep using a 1/8" (3mm) drill bit. Install Wall Plate **(A)** using ST6x30mm Screws **(W-A)** and a Phillips screwdriver. Repeat for second Wall Plate.

## STEP 2

Secure VESA Plate (**B**) to TV using appropriate Screws (**M-B thru M-D**), M4 Washers (**M-A**), and a Phillips screwdriver. Ensure “UP” callout is in the correct orientation.

(x4)

Choose appropriate mounting screw for your TV.

M-A  
(x4)

If needed for your TV.

- OR -

### STEP 3

Because of low-profile of mount, any needed cables should be plugged in prior to mounting the TV. Once cables are plugged in, slide TV with VESA Plate **(B)** onto Wall Plate **(A)**.
