

# AUTOMATE™

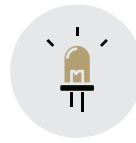

## DC Power Distribution Panel

Up to 18 individual motor connections. Efficient installation.  
The voltage and current output allow for greater cable lengths from  
motor to power panel.

### RELIABLE, COST EFFECTIVE POWER

Power your Automate DCRF motors from a compact, central location that can service up to 18 motors.

### LED STATUS

Easily check each individual motors power status, by viewing the prominent green LED's on the DC Power Panel.

### SECURE LOCK

Locking cabinet provides protection from inadvertent or unwanted access to power connections.

### DIFFERENT WIRE TYPES

The panel can be used with many different wire types (from 26 to 14 AWG). So any pre-wired installation may readily use DCRF motors and the Power Distribution Panel.
