WHY DOGTRA?

CERTIFIED DURABILITY & RELIABILITY

Dogtra products are durable enough to withstand the most demanding training conditions and are trusted and used by professional trainers, Navy Seal handlers, and hunters.

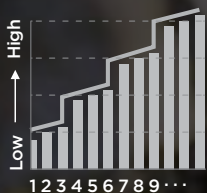

Dogtra's high quality, IPX9K certified e-collars have been specifically tested for waterproof protection. The Dogtra IPX9K rated units were tested at close range using powerful water jets with high pressure and high temperature over various points.

GRADUAL & PRECISE STIMULATION CONTROL

Patented '127 Levels Rheostat Dial' with LCD screen gives gradual and precise stimulation control without a jump. This broad range lets you select the exact stimulation that is needed for your dog.

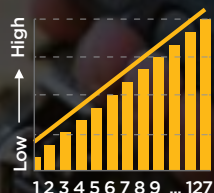

*Some Dogtra models have a Selector/Step Dial for specific training purposes
