

GA751 75mm Video Tripod

The E-IMAGE GA751 single-stage aluminum tripod provides a stable platform for your 75mm fluid head. Featuring a single-stage design, the aluminum alloy legs incorporate a patented locking mechanism. The legs support up to 40kg (88lbs) of head, camera, and accessory weight. A removable, adjustable mid-level spreader allows you to set the legs up on uneven surfaces.

75mm bowl size.

Ergonomic hand locking knob.

High quality aluminum tube.

Adjustable middle spreader adding extra stability.

Spike foot & big rubber are both available.
