

4UShop S950RE

512 kWords (768 kByte) RAM Expansion
module for the Akai S950 sampler

INSTALLATION GUIDE

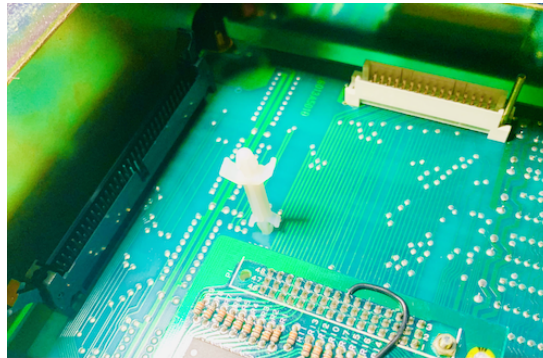

STEP 1 - FLIP IT OVER

Flip your sampler and remove the bottom RAM cover lid

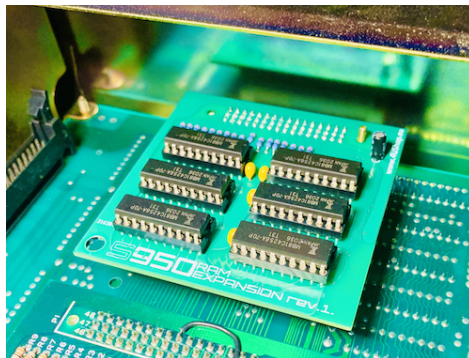

STEP 2 - INSERT THE PLASTIC THING

If your sampler's board does not have the small plastic PCB holder, one is included with your RAM module; insert it to the board - just push it softly into the hole

STEP 3 - INSERT THE RAM MODULE

The RAM modules are keyed, they can't be inserted backwards - just push them into the socket

STEP 4 - FIX IT WITH THE PLASTIC WASHER AND M2.5 NUT

A plastic washer and M2.5 nut is also included with each RAM module; just tighten it with hand, that should be enough
