

### BASIC CROCHET STITCH DIAGRAM

#### 1. Stitch (Abbreviated 'st')

Using yarn of choice, chain 2 with a slip knot. Loop the yarn around your finger (leaving a tail with pull it to pull through). Working from the front side into the second loop, pull the yarn back over the front side.

#### 2. Chain Stitch (Abbreviated 'ch')

The chain stitch is the basic of all crochet stitches and is used to start a new project.

#### 3. Slip Stitch (Abbreviated 'sl st')

The slip stitch is the fastest and easiest of all crochet stitches. You make up the stitch by inserting the hook into the back loop of the previous stitch and pulling the yarn through.

#### 4. Single Crochet (Abbreviated 'sc')

The single crochet is the most basic of all stitches. Insert the yarn into the back loop of the previous stitch and pull the yarn through the loop. Then, insert the hook into the next stitch and pull the yarn through the loop.

#### 5. Increase (Abbreviated 'inc')

You can increase stitches by adding a stitch at the beginning of the row. This is done by making 2 stitches in the same spot.

#### 6. Decrease (Abbreviated 'dec')

You can decrease stitches by adding a stitch at the beginning of the row. This is done by making 2 stitches in the same spot.

#### 7. Double Crochet (Abbreviated 'dc')

The double crochet is one of the most common stitches. Insert the yarn into the back loop of the previous stitch and pull the yarn through the loop. Then, insert the hook into the next stitch and pull the yarn through the loop.

#### 8. Insert Your Hook into 2nd Back Loop

Insert your hook into the 2nd back loop of the previous stitch and pull the yarn through the loop.

#### 9. Fasten Off (Abbreviated 'FO')

Fasten off by pulling the yarn through the last stitch and pulling it tight. Cut the yarn.

#### 10. Sewing

Insert the needle into the back of the previous stitch and pull the thread through the loop. Then, insert the needle into the next stitch and pull the thread through the loop.

#### 11. Weaving In/Invisible Close

Insert the needle into the back of the previous stitch and pull the thread through the loop. Then, insert the needle into the next stitch and pull the thread through the loop.

#### 12. Round (Abbreviated 'rd')

This continues the chain stitch and is used to create a round.

#### 13. Magic Ring

A magic ring is a technique used to start a new project. It is created by making a chain of 3 stitches and then pulling the yarn through the loop.
