

ThermoPro TP359 Smart Digital Indoor Hygrometer Thermometer (Bluetooth 5.0)

SKU: THEPROTP359BK
Manufacture Warranty period: 12 months
Country of Origin: China

Introduction

With Swiss-made high-precision sensors, the ThermoPro TP359 will read and record the slightest changes in temperature and humidity. With the arrow trend indicators, you will be able to react ahead of time such as adjusting your thermostat or humidifier. TP359 is capable of a long 260ft/80m Bluetooth range to send data directly to your phone. When the temperature and humidity go out of your preset range, you will instantly receive a notification from the APP.

- APP Monitor via Bluetooth 5.0 on Your Smartphone
- Remote Range: 260ft/80m
- Touch Button
- Backlight Display
- 1 Year Data Storage
- Comfort Levels (Dry, Comfort & Wet)
- Trend Arrows
- Alert Notification
- Max / Min Records
- Temperature Display Unit: C°/F° selectable;
- LCD Display Size: 3.5 inch

Supports Multiple Sensors

The temperature and humidity monitor APP supports the connection of up to 10 indoor thermometers for a home to allow you to continuously monitor the temperature and humidity changes in your entire home and adjust your thermostat or humidifier to improve your quality of life.

Alert Function

Set preset temp and humidity ranges of your garden greenhouse thermometer, the app will immediately notify you if your temp or humidity falls out of the set range. Perfect for having complete control over your room and being able to make immediate adjustments.

Heat Index and Air Comfort Indicator

The home temperature monitor APP will display in real-time, the Heat Index also known as Apparent Temperature to provide you and your family with the most meticulous care. The air comfort indicator shows the comfort level of your home, based on the current humidity level.

Swiss-made, Highly Accurate Sensors

The built-in Swiss high-precision hydrometer digital will quickly and accurately record temperature and humidity changes and are accurate to within $\pm 0.5^{\circ}\text{F}$ / $\pm 0.3^{\circ}\text{C}$, and humidity is $\pm 2\sim 3\%\text{RH}$.

Touch Sensitive Buttons

The touch-sensitive buttons are easy to use and only require a light touch, conveniently switching between Fahrenheit and Celsius. Press and hold the Bluetooth button for 2 seconds to enter the pairing status. Press the Backlight button to illuminate the screen for easy reading. Press the clear button to Clear data of the past 24 hours with one quick press.

Mutiple Placement Options

Place desk thermometer anywhere to fit your home's needs due to its compact figure and multitude of placement options: tabletop stand, magnetic back to magnetize your fridge, or use the wall hook.
