

Aroma Diffuser User Manual

Safety Feature

This safety feature on Birgus Aroma Diffuser helps to minimize the water leakage hazard. When the diffuser detects a low water condition it will automatically shut down the device to your safety. There will always be a small amount of water left in the water reservoir for safe operation.

Please use Birgus Aroma Diffuser in a well-ventilated area and do not use it near children or pets.

If any question or problem, please contact us: support@birgus.com

DIFFUSER & ACCESSORIES

SPECIFICATIONS

Model	Birgus Aroma Diffuser
Material	ABS Plastic
Power	5W
Water Capacity	100ml
Essential Oil Capacity	10ml
Dimensions	100mm x 100mm x 100mm

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The device has been evaluated to meet general RF exposure requirement, the device can be used in portable exposure condition with restriction
