

Instructions for 1211-080, 1211-081 Lighted Exit Buttons

- The 1211-080 and 1211-081 are designed for indoor use only. Mount the buttons 40 to 48 inches vertically above the floor and within 5-feet of the door (NFPA 101, Life Safety Code).
- **The 1211-080 is designed for installation in a 2-5/8-inch deep (minimum) single-gang electrical box. A standard 2-inch deep box will require an extension ring.**
- The buttons will illuminate with 12-Volt DC power.
- Switch contacts are rated at 10-amp, 125 Volt.
