## INSTALLATION INSTRUCTIONS

**03-168: One Piece Automotive Style Grab Handle**

**STEP 1**
Insert allen head bolt into the grab handle and thread on the 'T' nut onto the end of the bolt.

**STEP 2**
Align the 'T' nuts with the inside wide track as shown.

**STEP 3**
Using a 6mm allen wrench, tighten the allen head bolt ensuring the 'T' nut engages on the triple track top.

**STEP 4**
Tighten the allen head hand tight to ensure the grab handle is secure to the top and use supplied plugs to cover bolt holes.

**03-167: Round Grab Handle with Nylon Strap**

**STEP 1**
Install the 'T' studs into the inside wide track and turn to engage with track.

**STEP 2**
Place grab handle mounting bracket onto the 'T' studs with the flat side facing out, as shown in Step 3.

**STEP 3**
Thread the supplied locknut onto the 'T' studs as shown and adjust the grab handle to desired width.

**STEP 4**
Using a 13mm socket, hand-tighten down the locknut securely, ensuring the 'T' stud is fully engaged with the track.

**Note:** Self-tapping screws included for optional installation locations.
