**DS-856
Wireless Keyboard
User Manual**

Dear users:

Thank you for buying and using our products! In order to protect your rights and interests, this product is implemented after-sales service on the basis of laws and regulations stipulated by the state. In order to make our service more satisfactory to you, please read these following cards carefully and keep them properly after purchasing.

Product quality assurance:

1. Note: the cards are warranties and must be valid with the seller's stamp and properly preserved.
2. The validity period of service is effective from the date of your purchase, that is, the date of the sale is based on this certificate.

Services:

1. Within seven days from the date of purchase, if the package is not damaged and does not affect the resale of the product. If you are not satisfied, return the item & package.
2. within fifteen days from the date of purchase, if consumers are not satisfied, we offer replacement with the same value of the products.
3. Under the normal use and maintenance of the purchased products within the three-pack period, the free maintenance service is implemented. If there is a breakdown, it can be repaired and replaced free of charge by the technician after checking and confirming.
4. Be sure to bring all cards when repairing or changing items. The invoice and anti-counterfeiting label should be replaced by the seller.

The following scope does not fall within the scope of the Product quality assurance & Services:

1. exceeding the validity period
2. by not using the items according to the instruction manual.
3. self dismantling the equipment/devices
4. not having an invoice.
5. unauthorized alteration of three package vouchers
6. tears the bottom sticker.
7. Fake items/Fake logo
8. vouchers and material objects are not acceptable.
8. due to factors that cannot be resisted.
10. Using pirated software to cause viruses to the hardware.
9. External factors
10. other nonproduct design and nontechnical problems, cause a product damage.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
