### Specifications:

**Material:** ABS plate, strong adhesive

**Diameter:** 73mm /2.87inch

**Color:** Black

### Install Steps:

Clean the dashboard and keep it dry.

Tear off the protective cover on the base of the disk.

Press it down hardly for 30 to 60 seconds. Place it for 24 hours to ensure a strong adhesive grip. Attach suction cup mount on the disc firmly.

### Features:

**Wide Application:** Adhesive mounting disk works only with any 7.3cm/ 2.87" or smaller than 7.3cm/ 2.87" suction mounting pedestal such as smartphone mount, car camera, GPS suction mount, etc.

If you use the sticky pad, it could protect your car from damage while you do not need to frequently pick up the suction cup from the dashboard.

**Tips:** Each pad is one-time use only. Once removed, it might not be reapplied.

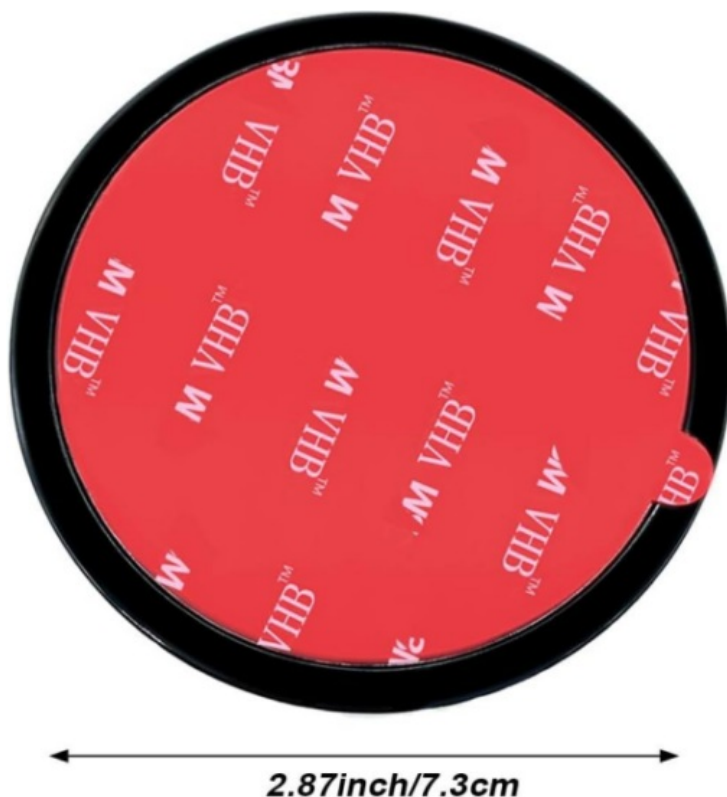

Please-clean your suction cup with running water and let it air dry before attach to the sticky disk plate surface

### Package Contents:

4 x Dashboard Mount Disk Pads

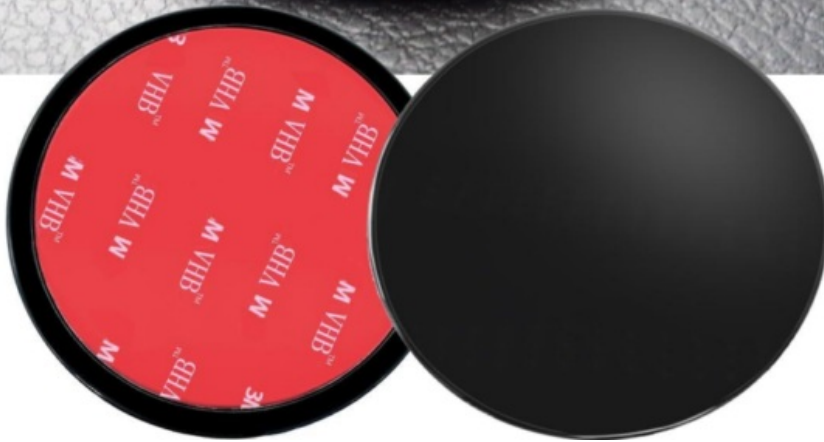

### ADHESIVE DASHBOARD MOUNT DISC

**Diameter:** 73mm thickness for disk with adhesive: around 3mm

### MOUNTING WITH SMOOTH & FLAT SURFACE

Thanks for PVC plate and 3M VBH adhesive, upper part PVC plate provides smooth and flat surface while bottom Sticky 3M PE foam adhesive fixed dashboard textured surface!
