E1 Label Printer

Foreword:Create labels for a variety of uses straight away by using MakeID label printers. By choosing different border designs, fonts, sizes, stickers and more, you can esign beautiful custom labels.
Please read this manual thoroughly before use and keep it with care for future reference.

Rights: MakeID is the owner of this manual. To share, translate or modify the contents without the permission of MakeID is prohibited.

Trademark: The trademark of MakeID has been registered in the U.S, Europe and elsewhere, and all other trademarks are the properties of their respective owners.

Cautions:

1. Do not use the printer for any use and purpose other than the function described in this manual,as that may lead to accidents or damage to the printer;

2. 0nly official MakeID labels can be used on this printer, please do not use other branded labels;

3. Do not touch the print head with fingers. If the print head is dirty, please wipe it gently with alcohol-based cleaning wipes; in the label

4. Do not place any foreign exit as this may damage the

5. Do not place the printer in direct sunlight or rain, near heaters or other heat-generating devices, dashboards, the rear of cars, and in any area exposed to extremely high or low tempera tures, high humidity or dust. Standard operating temperature range is5C-35C;

6. Do not stick the label onto any place where your hands often touch. Sweat and friction make the printing fade;

7. Do not expose the label paper to chemically based liquids, such as liquid soap, laundry detergent, liquid or alcohol etc, for long periods of time, it will shorten the life of the label paper;

8. Do not wipe the label with alcohol-based cleaning items;

9. Thermal inkless printing is a special printing technology. If it is wrongly used, the printing color will fade. Label papers should be used at room temperature, stuck in dry and smooth places that are not often touched.
