## 1205 Smart Brackelet Selkos

We recommend that you carefully read this instruction manual and keep it for future reference.

Item Description:

A-sensor

B- Charging Zone

C- Central Button

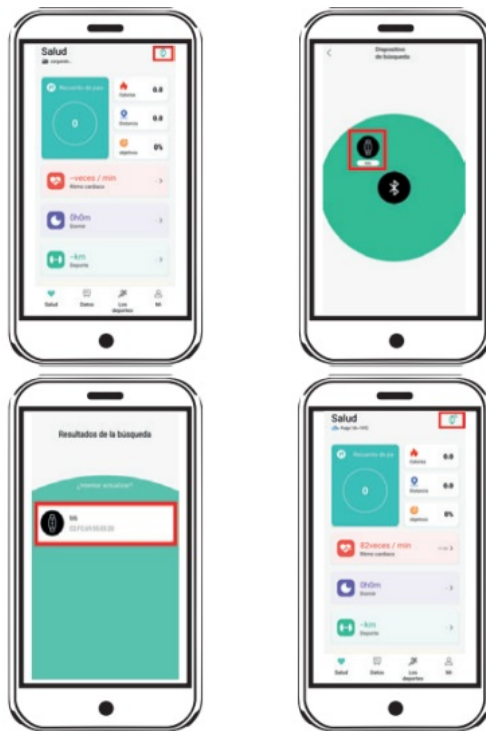

## Specifications:

- Bluetooth Version: 5.2
- TFT Screen; 0.96 inches
- Charging Voltage: 5V DC
- Lithium Polymer Battery: 50mAh, 3.7V,
- Operating Distance: Up to 10 meters
- Operating Time: 5-7 days
- Compatible with iOS 9.0 and Android 5.0 or later
- Protection Grade: IP67

## Operation:

Synchronize the watch with your mobile device via the APP

1. Download "HiyFine" from the App Store (iOS) or Google Play Store (Android). You can also do this using the QR code on the start page.
2. Press and hold the central button on the watch,
3. Enable Bluetooth and Location on your mobile device.
4. Open the installed app (Keep the watch close to your device during pairing).
5. Pair the watch with your device by following these steps

6. Once synchronized, you can configure the device with your personal information and set your daily training goals.
7. Explore the app to discover its various functions.

## Notes:

Some app features require registration within the app.

To ensure proper app functionality, accept the required permissions.

– App performance may be affected by updates.

## Functions:

### Sleep Mode:

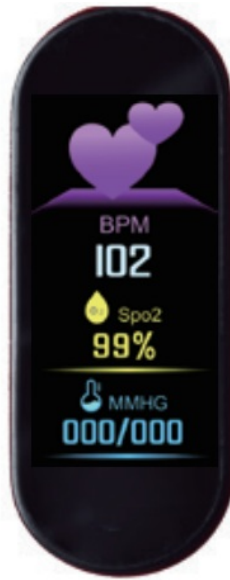

This function monitors activity during sleep and indicates sleep quality based on your

movements at night. The measurement takes place starting at 10:00 PM, and the results can be viewed in the app.

### **Measurements:**

This device allows you to measure heart rate, blood pressure, and blood oxygen percentage. Press the central button to navigate to the screen and hold it down. The bracelet will emit a green light from the back and start the process.

**Note:** You can also start the measurement via the app.

### **Notifications and Alarms:**

This device lets you set various notifications such as incoming calls, messages, and certain apps. Additionally, you can activate alarms such as wake-up calls and sedentary reminders.

The device saves the last notification received.

To view it, press the central button until you reach the corresponding screen and hold it down.

**Note:** Once viewed, the message will no longer appe....

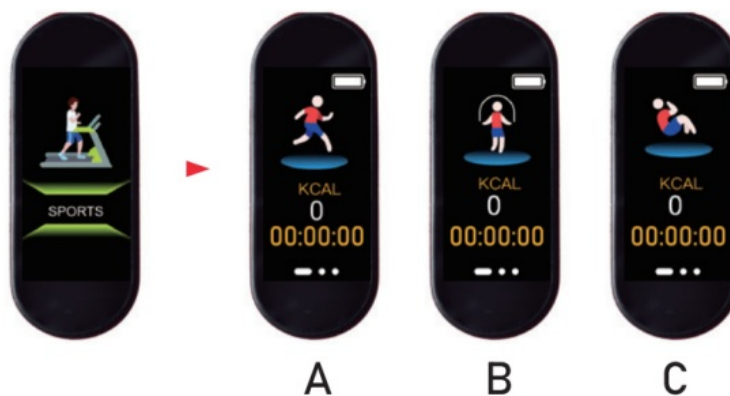

### Exercise Mode:

This device calculates steps, distance traveled, and calories burned. Press the central button to navigate to the corresponding screen and hold it down to access.

**Note:** These statistics reset daily at 12:00 AM.

The device also features “Sports” mode, which monitors sports activities like running, skipping, or sit-ups. Press the central button to navigate to the corresponding screen and hold it down to access. Use the button to scroll through various functions and hold it down again to access them. Once accessed, a timer will start. To finish, press and hold the central button.

A-Running

B-Skipping Rope

C-Sit-ups

### Weather:

The device displays the time and the minimum/maximum temperature based on your phone’s location.

### Music:

This function allows you to pause/resume your phone's music, skip to the previous track, or proceed to the next one.

**Note:** To change the layout of the watch's main screen, hold down the central button, and the theme will switch automatically.

### Turning Off the Device:

Within the option  press until you reach  and hold it down. Restarting the Device:

Within the option  press until you reach  and hold it down.

### Charging:

Use the provided cable for charging. Match the connection points on the charging zone of the device with the charging cable's points and connect the USB end to a suitable power source.

### Warnings:

1. Do not expose it to rain or wet environments.
2. Avoid drops that may cause serious damage.
3. Do not attempt to repair the unit yourself; contact a specialist.
4. To avoid risks, do not dispose of it improperly, as it contains an integrated lithium battery.
5. Clean it with a dry cloth.
6. Do not install it near heat sources or direct sunlight.
7. Do not insert any metallic objects into the unit, as there is a risk of short circuit.

The reference symbol on both the product and its user manual indicates that, at the end of the lifecycle of electrical and/or electronic devices, they must be recycled separately from household waste. There are appropriate means to collect this type of material for proper recycling. For more information, contact your local authority.

Hereby, Mkto Catal Importaciones S.L. declares that this radio equipment complies with Directive 2014/53/EU.
