Mandis 00017 B Replacement Remote Control Instructions

## **Product Information**

## **Specifications:**

• Model: Q-Pro IPC

• Power: AC adapter (included)

• Display: Index display

• Playback Speed: Variable (Slow2, Slow+, Shuttle)

• Locking Mechanism: V.Lock

• Function Buttons: Standby/On, Eject, Shuttle, F.ADV CLR/RST, Power Eject, Input/Repeat, Prog Up/Down, TRK Up/Down, Menu, Speed, Audio Left, Tv/VCR, Play, Pause, Stop

## **Product Usage Instructions**

## **Powering On and Off:**

To turn on the Q-Pro IPC, press the Standby/On button. To put the device on standby or turn it off completely, press the same button again.

## **Ejecting a Disc:**

To eject a disc, press the Eject button.

## **Playback Control:**

The Q-Pro IPC offers various playback control options:

- Slow Motion: Use the Slow2 and Slow+ buttons to play the content at slower speeds.
- Shuttle Control: The Shuttle buttons (4, 5, and 6) allow you to control the playback speed and direction.
- Variable Speed Playback: Press the Shuttle buttons in combination with the number of buttons (1-9) to set specific playback speeds.

#### **V.Lock Function:**

The V.Lock function ensures that the disc tray remains locked during playback. Use the V.Lock buttons (7, 8, and 9) to activate or deactivate this feature.

#### F.ADV CLR/RST:

The F.ADV CLR/RST button serves as a fast advance and also resets the device to its default settings.

#### **Display Index:**

The Q-Pro IPC includes an index display feature that allows you to navigate through the content on the disc. Use the Display Index button to access this feature.

#### Replacement:

If you need to replace any parts or components of the Q-Pro IPC, please refer to the user manual for detailed instructions specific to your model.

#### **Smart Info Guide:**

The Smart Info Guide provides additional information and guidance on using the Q-Pro IPC. Access this feature by pressing the Options button and selecting Smart Info Guide.

#### Frequently Asked Questions (FAQ):

- Q: How do I change the playback speed?
- A: To change the playback speed, use the Shuttle buttons in combination with the number of buttons (1-9) on the device.
- Q: How do I activate or deactivate the V.Lock function?
- A: Press the V.Lock buttons (7, 8, or 9) to activate or deactivate the V.Lock function.
- Q: How do I navigate through the content on a disc?
- A: Use the Display Index button to access the index display feature, which allows you to navigate through the content on the disc.
- Q: How do I access additional information and guidance?
- A: Press the Options button and select Smart Info Guide to access the Smart Info Guide feature, which provides additional information and guidance on using the Q-Pro IPC.
