FAQ (Frequently Asked Questions)

How do I replace the batteries in the remote control?

To replace the batteries, follow these steps:

1. Locate the battery compartment on the back of the remote control.
2. Slide the compartment cover open and remove the old batteries.
3. Insert two fresh AAA batteries, ensuring correct polarity.
4. Slide the compartment cover back into place.

Can I use this remote control with other devices?

No, this remote control is specifically designed for use with the Timer Dig 6 CTS device and may not be compatible with other devices.

How do I access the electronic program guide?

To access the electronic program guide, press the Power Guide or EPG button on the remote control. Use the navigation buttons to scroll through the available channels and select the desired program.

What should I do if the remote control is not functioning properly?

If the remote control is not functioning properly, try the following steps:

1. Check if the batteries are inserted correctly and replace them if necessary.
2. Ensure there are no obstructions between the remote control and the device.
3. Try resetting the device by performing a power reset (refer to the Power Reset section in the user manual).
4. If the issue persists, contact customer support for further assistance.
