Product Usage Instructions

Powering On and Off:

- To power on the device using the original remote control, press the Power button. To power off the device, press the same Power button again.
- If you are using the replacement remote control, press the Power AV button to power on the device and press it again to power it off.

Navigation and Menu Options:

- Both the original and replacement remote controls have navigation buttons such as Up, Down, Right, and Left. Use these buttons to navigate through menu options and select your desired settings.
- The Guide button on the original remote control is equivalent to the EPG button on the replacement remote control. Use this button to access the electronic program guide.
- The Menu button on the original remote control is equivalent to the D.Menu button on the replacement remote control. Use this button to access the device's main menu.
- The Return button on both remote controls allows you to go back to the previous screen or menu.

Volume and Audio Controls:

- Adjust the volume of the device using the Vol+ and Vol- buttons on both remote controls. The Mute button can be used to mute or unmute the audio.
- If you wish to enable subtitles, press the Subtitle button. To change the audio language, use the Lang I/II button on the replacement remote control, or the Audio button on the original remote control.

Additional Features:

- The List button on both remote controls allows you to access a list of available options or content.
- Use the Red button to perform specific actions depending on the device. On the original remote control, it is associated with TV-related functions, while on the replacement remote control, it may be associated with Netflix or search functions.

FAQ:

Where can I find a replacement remote control for RC3000E02?
You can find a replacement remote control for RC3000E02 at **this link**.
