SAFETY INSTRUCTIONS

WARNING

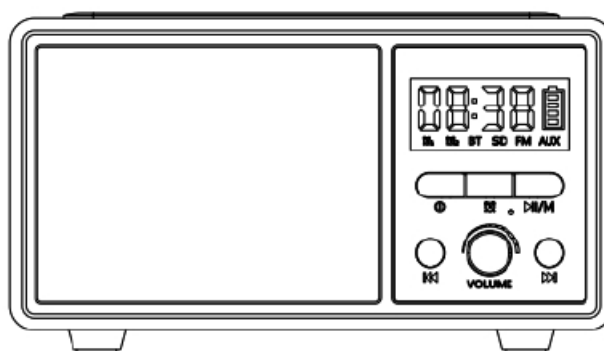

- Never remove the casing of the clock radio.
- Never lubricate any part of the clock radio.
- Never place this clock radio on top of other electronic devices.
- Never expose the clock radio to sunlight, naked flames or heat.
- Make sure you have easy access to the power cord, plug, or adapter to disconnect the clock radio from the power.
- Read this manual
- Heed all warnings.
- Follow all instructions.
- Do not block any vents.
- Install the device in accordance with the manufacturer's instructions.
- Do not install the device near any heat sources, such as radiators, warm air inlets, stoves and other appliances (including amplifiers) that produce heat.
- If a foreign object or a liquid accidentally gets inside the device, disconnect the power cord and have the device checked before re-use.
- Secure the power cord so that it cannot be walked on or pinched, particularly at plugs, convenience receptacles, and the point where the cord exits from the clock radio.
- Use only attachments and accessories specified by the manufacturer.
- Unplug the device from the power source during lightning storms and when not in use for long periods.
- Have the device repaired by qualified service personnel. Servicing is required when the apparatus has been

damaged in any way, such as the power cord is damaged, liquid has been spilled on the apparatus, or an object has been dropped, exposed to rain or moisture, does not operate properly, or has been dropped.

- This clock radio shall not be exposed to dripping or splashing.
- Do not place potentially dangerous objects (eg, pots filled with liquids, lighted candles) on the clock radio.
- If the device is connected to a wall socket with the mains adapter, the plug must be easily accessible
