MAPIXO Light-Up Floating Dinosaur Toy

INTRODUCTION

Young children will love playing with the MAPIXO Light-Up Floating Dinosaur Toy in the tub. It's a safe and bright way to learn while having fun. This cute dinosaur toy is made to float on water, and it has color-changing LED lights that turn on automatically when it touches water, making the play experience magical and fun. This cool new toy is fun for babies and kids up to six months old and can keep them busy for hours in the tub or pool. It's a cute bath buddy and a great idea for a birthday or other special occasion gift. The toy costs **\$13.95** and can be bought online. It has become a popular choice among parents since it came out because it lasts a long time, is safe, and makes kids happy during bath time. MAPIXO, the company that made the item, is known for making fun, educational toys for kids that are of good quality.

SPECIFICATIONS

WHAT'S IN THE BOX

- Dinosaur Toy
- Battery
- User Manual

FEATURES

- **Color-Changing LED Lights:** When the toy is turned on, the LED lights change colors, making bath time fun.

- **Automatic Activation:** When the toy hits the water, it lights up on its own, which is fun and surprising for kids.

3 LED 7 COLORS GLOWING

PUT IN WATER OR
TOUCH BOTTOM TO GLOW

- **Long Battery Life:** Depending on how often they are used, the batteries that come with the device usually last more than three months.
- The dinosaur toy floats on water, which makes it great for playing in the bath or the pool.
- It is safe for babies because it has smooth edges and is made of high-quality, non-toxic materials. It is also safe for kids 6 months and older.
- **Small Size:** Each dinosaur is about 2.4 inches long, which makes them great for little hands and easy to hold.
- **Durable Construction:** This toy is made of strong rubber, so it won't break or chip even after being used a lot.
- **Engaging Bath Time Experience:** The sparkling and floating parts make bath time more fun for kids, even those who might not normally like it.
- **Ideal Gift:** This is a great gift for Christmas, Easter, birthdays, or baby showers.
- **Fun with a Dinosaur Theme:** This is a great addition to a dinosaur-themed bathroom or party.
- **Helps Build Coordination:** The flying dinosaur toys are good for building hand-eye coordination and fine motor skills in kids.
- **Non-toxic and BPA-free:** The toy is made from safe, child-friendly materials that don't contain any chemicals that are bad for you, like BPA.
- **Flexible Use:** It can be put in the shower, the pool, or a child's bathroom to make it look nicer.
- **Lightweight:** Because it's light, it's easy for little kids to handle.
- **Fun that teaches:** The toy can help kids use their imaginations and learn about dinosaurs, so it's both fun and useful.

SETUP GUIDE

- **Unbox the Toy:** Take the toy out of its box and make sure it's in good shape.
- **Check Battery Installation:** Make sure the battery is fitted correctly. The batteries are already in the toy, so

there's no need to set it up.

- **Check out the Toy:** To turn on the lights, put the toy in water. Make sure the LED lights change colors the way you want them to.
- **Ideal Water Level:** Test the toy in shallow water, like a bathtub or kiddie pool, to make sure it works when it's underwater.
- **Putting the toy down:** Put it in the tub or pool so it can float easily. Make sure it can float easily without any problems.
- **Encourage Play:** Show your child the toy and let them play with its light-up and moving parts.
- **Water Temperature:** Make sure the water isn't too hot or too cold, because the toy might not work well in those extreme temps.
- **Watching:** Always keep an eye on little kids while they play with the toy, especially when they're in the water.
- To make things more fun, put together a bunch of floating dinosaur toys in the tub to make a bright water play area.
- **Use for decoration:** If you are setting up a themed bathroom, put the toy on a bathroom shelf or table to make it look even better.
- **Setting up the party:** If you're having a dinosaur-themed party, put together a small pool or other water play area with some moving dinosaur toys for the kids to enjoy.
- You can use the toy to teach your child about dinosaurs while they are having fun in the bath.
- **Check Battery Life:** Make sure the batteries are still working by checking the toy's lights every so often.
- **Extra Parts Are Not Necessary:** This toy does not need any extra parts to work. Add water and have fun.
- **Storage:** Keep the toy in a dry place when not in use so water doesn't get inside and damage the electronics.

CARE & MAINTENANCE

- If you don't want mold or mildew to grow on the toy, take it out of the water after each use and let it dry all the way.
- **Clean the toy** every so often with warm soapy water and a soft cloth to get rid of any dirt or dust.
- **How to Store It:** Keep the toy out of direct sunlight and in a dry, cool place when not in use to protect the LED lights that change colors.
- **Avoid Harsh Chemicals:** To clean the toy, don't use harsh chemicals or rough materials because they could damage the surface or make it less useful.
- **Check for Wear:** To make sure it's safe, check the toy every so often for damage signs like cracks or broken pieces.
- **Keep Dry:** When you're done playing with the toy, make sure there is no water left inside. Turn it over and gently shake it to get rid of the extra water.
- **Maintenance on the batteries:** Keep an eye on how long they last and change them when the lights stop working or get dim. Replace with new batteries that work with your device.
- **Don't Submerge for Long Periods:** The toy is made to move and light up in water, but don't keep it underwater for long periods of time to protect the batteries.
- **Test the LED Lights:** If the LED lights stop working, make sure the battery is dead or that the water sensor isn't blocked.
- **Keep out of reach of children** when not in use to keep the toy safe and make it last longer. Don't put it away after each bath.
- **Do Not Drop:** The toy is strong, but dropping it on a hard surface could damage the electronics or plastic. Be

careful with it.

- **Keep Away from Extreme Temperatures:** Do not put the toy somewhere very hot or very cold, as this could damage the electronics or make it less useful.
- **Make Sure the Surface Is Clean:** Clean the toy's surface often to keep it free of dirt and soap scum.
- **Check for Leaks:** Every so often, see if water has gotten into the electric parts of the toy. If water leaks, it could make things less effective.
- **Watch While Playing:** Always watch your kids while they play with the toy to make sure they stay safe and have fun.

TROUBLESHOOTING

Issue	Possible Causes	Solutions
LED lights do not turn on	Water contact issue	Ensure the toy is in water to activate the lights
LED lights are dim	The battery may be running low	Replace the battery (if applicable)
The toy does not float	Foreign debris or obstruction inside	Clean the toy thoroughly, ensuring it's free of debris
The toy won't activate in water	The water sensor may be malfunctioning	Dry the toy completely and try again in freshwater
The toy feels warm after use	Battery heating up from extended use	Allow the toy to cool down before the next use
Lights flicker or blink unpredictably	Possible electrical connection issue	Check for corrosion or dirt on the battery compartment
The battery compartment is not closing	Misaligned or blocked battery cover	Ensure the compartment is securely closed
The toy is making a sound	Internal mechanism malfunction	Contact customer support for assistance
The toy doesn't float as expected	Water displacement issue	Ensure the toy is properly placed in the water
The toy has a leak	Wear or tear in the plastic body	Check for visible cracks or damage to the toy
Battery lasts for a shorter time	Faulty or old battery	Replace with a fresh battery
Toy stops lighting up suddenly	Water sensor failure	Dry and check for blockage or dirt
The toy has an odd smell	Manufacturing residue	Clean thoroughly and let dry before use
Toy feels slippery	Soap or oil residue	Rinse thoroughly with clean water
The toy's colors are fading	Extended exposure to sunlight	Store the toy in a shaded, dry place after use

PROS & CONS

Pros:

1. Automatically lights up when in water, creating an exciting bath experience.
2. Color-changing LED lights are visually appealing for young children.
3. Safe for babies and toddlers aged 6 months and up.
4. Affordable pricing at \$13.95, makes it an excellent gift option.
5. Lightweight and small, easy for little hands to hold and play with.

Cons:

1. LED lights may lose brightness after prolonged use.
2. Only effective in water, limiting its use outside of bath time.
3. Batteries may need replacing after extended use.
4. Small size may make it a choking hazard for children under 6 months.
5. Limited to indoor use, as it requires water to activate the lights.

WARRANTY

MAPIXO offers a **6-month warranty** on their Light-Up Floating Dinosaur Toy. The warranty covers any manufacturing defects, including issues with the LED lighting mechanism or malfunctioning parts. If the toy does not function properly within the warranty period, customers can contact MAPIXO's customer support for a replacement or refund.

FREQUENTLY ASKED QUESTIONS

What is the price of the MAPIXO Light-Up Floating Dinosaur Toy?

The MAPIXO Light-Up Floating Dinosaur Toy is priced at \$13.95, offering an affordable and fun toy option for young children.

What features make the MAPIXO Light-Up Floating Dinosaur Toy unique?

The MAPIXO Light-Up Floating Dinosaur Toy features color-changing LED lights, which automatically activate when the toy is placed in water, creating a magical and fun experience.

How long does the battery of the MAPIXO Light-Up Floating Dinosaur Toy last?

The battery of the MAPIXO Light-Up Floating Dinosaur Toy lasts more than 3 months, making it durable and perfect for long-term play.

What is the size of each MAPIXO Light-Up Floating Dinosaur Toy?

Each MAPIXO Light-Up Floating Dinosaur Toy measures 2.4 inches, making it a small and portable toy that can easily float and be handled by young children.

How does the MAPIXO Light-Up Floating Dinosaur Toy activate?

The MAPIXO Light-Up Floating Dinosaur Toy automatically lights up when placed in water, providing an exciting sensory experience for children.

What is the recommended age for the MAPIXO Light-Up Floating Dinosaur Toy?

The MAPIXO Light-Up Floating Dinosaur Toy is suitable for children over 6 months, making it an ideal choice for toddlers and young kids.

What colors do the LED lights on the MAPIXO Light-Up Floating Dinosaur Toy change to?

The MAPIXO Light-Up Floating Dinosaur Toy features color-changing LED lights, which cycle through various colors, adding excitement and visual appeal to bath time or pool play.

How does the MAPIXO Light-Up Floating Dinosaur Toy float in water?

The MAPIXO Light-Up Floating Dinosaur Toy is designed to float in water, allowing children to play with it during bath time or in the pool, making water activities more engaging.

What is the battery requirement for the MAPIXO Light-Up Floating Dinosaur Toy?

The MAPIXO Light-Up Floating Dinosaur Toy comes with a pre-installed battery that can last for more than 3 months, making it low-maintenance for parents.

MAPIXO Light-Up Floating Dinosaur Toy is easy to clean by rinsing it with water, ensuring it stays hygienic for future use.

What makes the MAPIXO Light-Up Floating Dinosaur Toy a good gift for children?

The MAPIXO Light-Up Floating Dinosaur Toy is an excellent gift for children due to its fun and interactive design, vibrant LED lights, and suitability for water play, making it both engaging and safe for little ones.

Why isn't my MAPIXO Light-Up Floating Dinosaur Toy lighting up?

Ensure that the toy is turned on and that it has fresh batteries. If the lights still don't work, check the battery compartment for corrosion or poor contact, and replace the batteries if necessary.

The MAPIXO Light-Up Floating Dinosaur Toy isn't floating properly. What should I do?

Make sure the toy is placed in water that is deep enough for it to float. If the toy is heavy or overloaded, it may not float well. Check if there's any waterlogged section of the toy or excess moisture that might be weighing it down.

My MAPIXO Light-Up Floating Dinosaur Toy is leaking water. How can I fix this?

Check if the toy has any visible cracks or tears in its body. If you find any, seal them with waterproof tape or adhesive. Avoid submerging the toy completely in water, as this might cause leakage through the seams.

The floating mechanism of my MAPIXO Light-Up Floating Dinosaur Toy is malfunctioning. What should I do?

Check that the propeller or floating mechanism is free of obstructions. If the motor is clogged with debris, carefully clean it. Ensure the toy is positioned upright in water to allow the floating mechanism to function properly.
