Important: External Antennas

The removable external antennas are required for both Bluetooth and Wireless network connectivity. Please make sure to connect the antennas before attempting to use the Bluetooth or Wi-Fi featuresof the NA6006.

Connecting the external antennas for Bluetooth/Wireless connectivity:

1. Place the antenna evenly over the antenna terminal located at the upper left or right corner of the rear panel.
2. Turn the antenna clockwise until it is fully connected. Do not over tighten.
3. Rotate the antenna upwards for the best possible reception.

Product Usage Instructions

Setup

There are six steps to the setup process:

1. Installing batteries in the remote control unit
2. Connect to the amplifier
3. Plug the power cord into a power outlet
4. Connect to the network
5. Enjoying your music!
6. Download the HEOS App

Installing batteries in the remote control unit:

Batteries are required for the remote control unit. Follow the instructions provided in the manual to install the batteries correctly.

Connect to the amplifier:

Connect the NA6006 to an amplifier using an audio cable. Refer to the manual for specific instructions on how to connect to your amplifier.

Plug the power cord into a power outlet:

Connect the power cord of the NA6006 to a household power outlet with AC 120V, 60Hz power supply.

Connect to the network:

Choose from one of the following options:

Wireless:

1. Power on the NA6006.
2. Select language.

(Please wait as starting the network settings can take a few minutes.)

1. Select the Wi-Fi network named "Marantz NA6006" from the Wi-Fi settings screen on your iOS device.
2. Follow the instructions on the screen to complete the connection.

Wired:

1. Connect a network cable between your NA6006 and your router. (cable not included)
2. Power on the NA6006.
3. Select language.
4. Please wait while your NA6006 connects to your wired network.

Enjoying your music!

Once the setup is complete and the NA6006 is connected to the network, you can start enjoying your music by playing it through the amplifier and speaker systems.

Download the HEOS App:

To enhance your user experience, you can download the HEOS App on your iOS device. Follow the instructions provided in the manual to download and install the app.

Frequently Asked Questions

Q: What is the purpose of the external antennas?

The external antennas are required for both Bluetooth and Wireless network connectivity. They improve the reception and signal quality for these features.

Q: How do I connect the external antennas?

To connect the external antennas, follow these steps:

1. Place each antenna evenly over the antenna terminal located at the upper left or right corner of the rear panel.
2. Turn each antenna clockwise until it is fully connected. Do not over tighten.
3. Rotate each antenna upwards for the best possible reception.
