This product requires a Zigbee gateway (sold separately).

Safety Instructions

Please read these instructions thoroughly before you use the device and keep them for future reference. Only for indoor use.

- Do not expose the product to extremely high or low temperatures, strong light sources or direct sunlight.
- This product is not a toy. Keep out of reach of children.
- Dispose of batteries as chemical waste. Remove the batteries when you are not using the system for a longer period of time. Check the polarity (+/-) of the batteries when inserting them in the product. Wrong positioning can cause an explosion.
- Repairs or service should only be performed by qualified personnel.

Requirements

This product requires a Smart me Zigbee Gateway (sold separately) that is connected to the Internet. Follow the instructions for the Smart me Gateway to add it.

Installation of the Smart me app

- Download and install the Marmitek Smart me app from the Apple app store or the Google Play store.
- Launch the Smart me app after installation is completed. Follow the instructions and register for a new account.
Installation of the Push LO

- Open the Push LO housing by sliding the front to the left and pull the plastic battery strip to activate the battery.
- The indicator light should start flashing rapidly. If the light does not blink, press push button 1 for 10 seconds until it starts to blink.
- Launch the Smart my app from your smartphone or tablet.
- Select the Smart me Zigbee Gateway.
- Click on the + (at the bottom of the screen) to add a new product, confirm that the indicator light is flashing quickly and follow the instructions.
- Press Help button during installation for more information or when installation fails.

Notes for using the product

- After the installation is completed you can configure the Push LO by using the app.
- Check our website **www.marmitek.com** for more details and how to use the Smart me products.
