## SAFETY INSTRUCTIONS

### WARNING!

- Any use with products heavier than the rated maximum load indicated may result in personal injury or material damage.
- Mount brackets must be attached as specified in the operating instructions. Improper installation may result in material damage and/or personal injury.
- Safety equipment and suitable tools must be used. This product should only be installed by qualified professionals.

- This product is designed to be installed on wood stud walls, solid concrete walls or brick walls.
- Make sure that the wall can support the combined weight of the mount bracket and the equipment it is attached to.
- Tighten the screws properly. Do not overtighten as this may lead to material damage.
- This product contains small items that could be a choking hazard if swallowed. Keep these items away from children.
- This product is intended for indoor use only. Using this product outdoors could lead to personal injury and/or material damage.

**IMPORTANT**

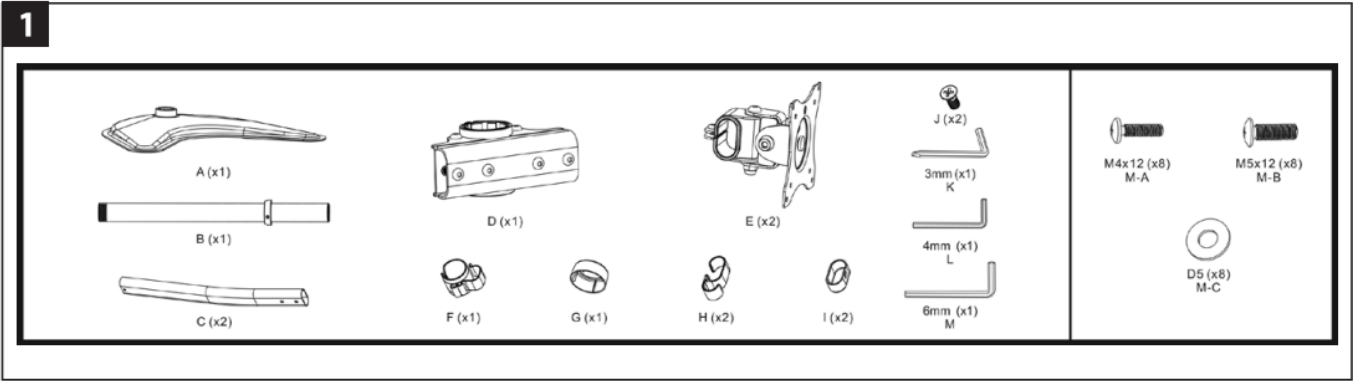

- Ensure that you have received all parts according to the component checklist. Contact Jula's customer service if any parts are missing or damaged.
- Check at least every three months that the bracket is correctly mounted.
