Part List

- Qty 1x motor assembly
- Qty 1x screw kit
- Qty 1x balancing kit
- Qty 1x hanging bracket
- Qty 1x instruction manual
- Qty 3x blades

Application

How to Assemble

Fg.1 120mm 45mm

Align the bracket and screw the hanger bracket to the ceiling tightly.

Fg.2 L N

Wire to mains as illustrated

WARNING Installation MUST carry out by a qualified and licensed electrician.

How to Install Blades
Fg.3 Fan only models

Attach the blade to the top of the motor using the 2 screws provided. Tighten the screws and repeat this procedure for all blades.

NB: Ensure the blades do not get damaged or bent during the installation process while the fan is on the ground. This will affect the performance and balance of the fan and this is NOT covered under warranty.

Fg.4 Fan LED Light Model

Attach the blade to the top of the motor using the 2 screws provided. Tighten the screws and repeat this procedure for all blades.
Fg.5

Place fan into hanger bracket and align ball joint slot with hanger bracket as illustrated.

**Installing Receiver Remote Control**

Fg.6

Wire up the receiver with quick connectors and insert it into the mounting bracket. Make sure the antenna wire has been safely folded inside the canopy cover before final assembly. (DO NOT cut the antenna wire)

Important Reminders

- The receiver must be correctly installed in the mounting bracket
- When the transmitter cannot control the receiver, please check
  - has a sufficient battery in the transmitter
  - any existence of similar remote-controlled products nearby that cause interference
- Replace the battery if getting low as this will affect the sensitivity of the transmitter
- Take the battery out from the transmitter when leaving used for a long time to avoid battery lea ks
- The isolation switch MUST be connected in the line

WARNING Installation MUST carry out by a qualified and licensed electrician.

Fg.7

After wiring is completed, attach the canopy to the hanger bracket by pushing upwards and twisting anti-clockwise. Tighten screws and ensure canopy is not touching the ball joint.

How to Install Light Plate

Fg.8   Fan LED Light Model

Install the LED light kits as illustrated above.

How to Install/ Remove the Cover

Fg.9   Fan Only Model

NB: There is no cover for Fan Only Model.

Fg.10   Fan LED Light Model

Align the convex point on the light plate with the gap
on the LED mounting plate and press down firmly.

☑ I agree to 《Privacy Policy》 《User Agreement》 and 《Children's Privacy Statement》 and 《Third Party Information Sharing List》

4. Follow instructions in main manual (steps can also be found on the back of the remote) to put the fan into WiFi pairing mode. If the operation is successful, go to step 5. If the fan has previously been paired or you can't get it towork, please go to step 4 to RESET the fan.

5. RESET the fan. This step is NOT necessary if the fan has successfully entered WiFi pairing mode in the last step, if not, try to RESET the fan: turn on the fan, power off after 10 seconds, power on again after 15 seconds, long press "Fan Stop" for 5 seconds, if "beep beep" are heard, the reset is successful. If "beep beep" is not heard, the reset is failed, please repeat this step.

6. Once the fan has entered WiFi pairing mode, open the APP again on the smart device. Click "Add Device" in the middle or the "+" on the top right of the screen.

7. The auto scan should begin automatically, and the fan should show up at the top of screen within a few

seconds.

Note: If the fan is not showing up, you can add it manually by clicking and navigate to: >Add Manually >Small Home Appliance > Fan

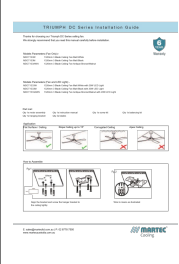

8. Follow the instructions in the APP to finish the setup.
