MASAYUKI Multi Function Mosquito Racket

The multi-function mosquito racket is the result of careful research and design by the company, introducing a new generation with a novel shape and super functionality. It can serve as both a mosquito swatter and a mosquito lamp. To maximize the utility of this product, please read the following instructions carefully:

Product Features

1. Main Functions: This device can effectively kill mosquitoes. The surrounding LED can function as a night light and also doubles as a mosquito lamp.
2. Strong and Durable: The outer shell is made of high-quality ABS engineering materials, providing durability.

The racket surface adopts ultrasonic solution mode, ensuring a sturdy feel during use.

3. Ultra-Strong Lithium Battery: Equipped with a built-in lithium-ion rechargeable battery with a rated capacity of up to 800mAh, capable of enduring more than 500 charge cycles.
4. Charging and Lighting: The charging interface is compatible with Android smartphones. The mosquito trapping mode activates at night, while the surrounding LED lights also serve as night lights.
5. Dual-Use Product: The original seat-type day/night mosquito feature, with USB charging mode, can be converted to battery power. It utilizes the surrounding LED purple light.

Directions

1. Charging: Set the power switch to the OFF position and plug the charging cable into the USB power socket (or use a mobile phone charger, mobile power supply, or computer USB jack). The charging indicator light will illuminate, indicating that the battery is charging.
2. Mosquito Swatter Mode: Slide the power switch to ON1, grasp the handle firmly, and the work indicator light will turn on. Swing the mosquito swatter handle to eliminate mosquitoes. After use, release the handle, and the indicator light will turn off.
3. Mosquito Lamp Mode: Slide the power switch to ON2, connect to the charging device, and place the product on the base. The LED light will illuminate, activating the mosquito lamp mode. The middle metal net now carries approximately 3000V of high voltage. Do not touch the electric net!
4. With the power switch set to ON2, the LED lamp will provide illumination when activated. Pressing the button switch allows for simultaneous use of the mosquito swatter mode and lighting.

Cautions

1. Avoid squeezing the swatter nets with your fingers, as you may experience a small shock.
2. Do not use this product around flammable gases or liquids.
3. Avoid cleaning the product with water, as it may damage the nets.
4. Do not insert metal objects between the nets for amusement, as this may cause damage.
5. Keep out of reach of children; this is not a toy

INSTRUCTIONS FOR RECYCLING AND DISPOSAL

This label means that the product cannot be disposed of as other household waste throughout the EU. To prevent potential damage to the environment or human health from uncontrolled waste disposal. Recycle responsibly to promote the sustainable use of material resources. If you want to return a used device, use the drop-off and collection system, or contact the retailer from whom you bought the product. The retailer can accept the product for environmentally safe recycling.

A declaration by the manufacturer that the product complies with the requirements of the applicable EU Directives.
