Stainless Steel Maintenance:

These parts have an UltraGuard® fingerprint-resistant finish. Do not use traditional stainless steel cleaners on this unit. Lightly wipe off once a month with clean warm water and a soft cloth (preferably a micro fiber cloth). This is the safest formula to prevent new stains from appearing over time and manage unwanted fingerprints or grease marks. Remember to always wipe in the direction of the surface grain (NEVER ACROSS) and always use a lint-free cloth. Once the surface is clean, thoroughly wipe dry with a soft absorbent cloth.
