REMOVE CONTENTS FROM THE BOX. VERIFY ALL PARTS ARE PRESENT. READ INSTRUCTIONS CAREFULLY BEFORE STARTING INSTALLATION. ASSISTANCE IS RECOMMENDED.

### STEP 1

Start the installation under the passenger/right side of the vehicle. Locate the 4 plugs along the bottom edge of the body. Mounting Brackets will attach to the 1st, 2nd and 4th threaded mounting holes (Figs 1, 2 & 3). Remove the plastic plugs from each mounting location. Directly above each threaded hole is a top mounting location on the side of the body panel. Hold a Bracket up in place to help determine the mounting holes to use along the body.

**NOTE:** Thread an 8mm Hex Bolt into the threaded holes to clear paint as required.
