**maxspect MJ-L165 Diffuser Hood**

## USING INSTRUCTION

Maxspect Diffuser Hood allows you to enjoy your tank without being interrupted by the direct light emitting from the L165. We also offer two pieces of detachable diffusers. It has two different sides, you can get slightly more lighting penetration if the glossy side faces up, or more light blending effect if the matte side faces up. In various circumstances, you can try different combinations to get an adequate lighting effect.

## Specifications

- **Product Name:** Maxspect Diffuser Hood
- **Model:** L165
- **Detachable diffusers:** Two pieces
- **Material:** High-quality plastic
- **Options:** Glossy side and matte side

## Usage Instructions

### Installing the Diffuser Hood:

Follow these steps to install the diffuser hood onto your tank:

1. Carefully place the diffuser hood over the light source.
2. Ensure that the glossy or matte side is facing in the desired direction.
3. Secure the diffuser hood in place according to the tank's design.

### Adjusting the Diffusers

You can experiment with different combinations of the glossy and matte sides to achieve your preferred lighting effect:

- If you want more lighting penetration, position the glossy side facing up.
- For a light blending effect, position the matte side facing up.

### Maintenance

Regularly clean the diffuser hood to ensure optimal lighting performance. Use a soft cloth and mild detergent to remove any dust or residue.

## Frequently Asked Questions (FAQ)

### Q: Can I use the diffuser hood with other lighting fixtures?

A: The Maxspect Diffuser Hood is specifically designed for use with the L165 model. Using it with other fixtures may not provide the intended lighting effects.

### Q: How do I know which side of the diffuser to use for my tank?

A: Experiment with both sides to determine which provides the best lighting effect for your setup. You can switch between the glossy and matte sides based on your preference.
