**Seeker Wireless Software Update Procedure for PC Users**

Please follow these instructions to update your MXL003 Seeker Wireless Satellite System
**Download file**

1. You need an empty/blank USB flash memory stick to copy the file onto. Please make sure it is formatted to FAT. See page 4 for more details.

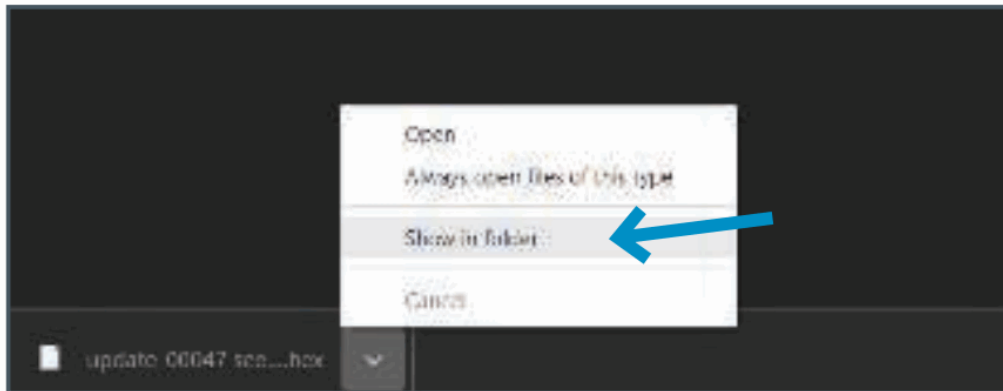

2. Insert your USB memory stick into an empty slot on your Mac desktop or laptop.

3. Find the software update section on the Maxie website **https://maxview.co.uk/software-updates/** Click on the Seeker Update File link to go do a separate download page.
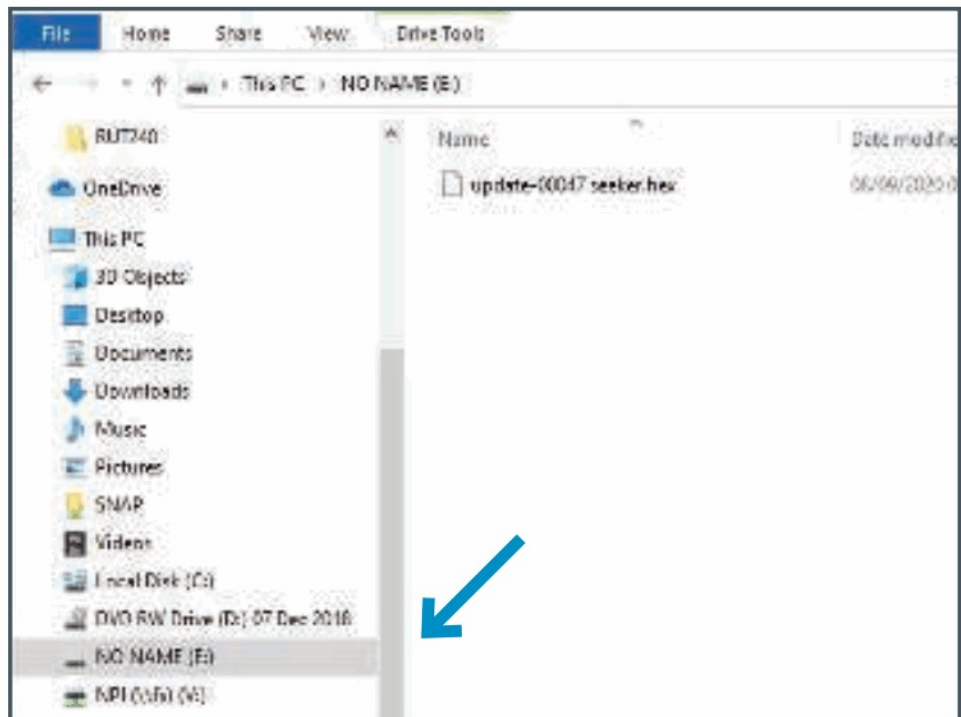

4. Click on the 'DOWNLOAD' button on the screen to begin downloading the HEX File onto your system.

5. Once downloaded, the file will appear in the bottom left hand side of the box (on google chrome) as shown above. Click 'Show in Folder'.

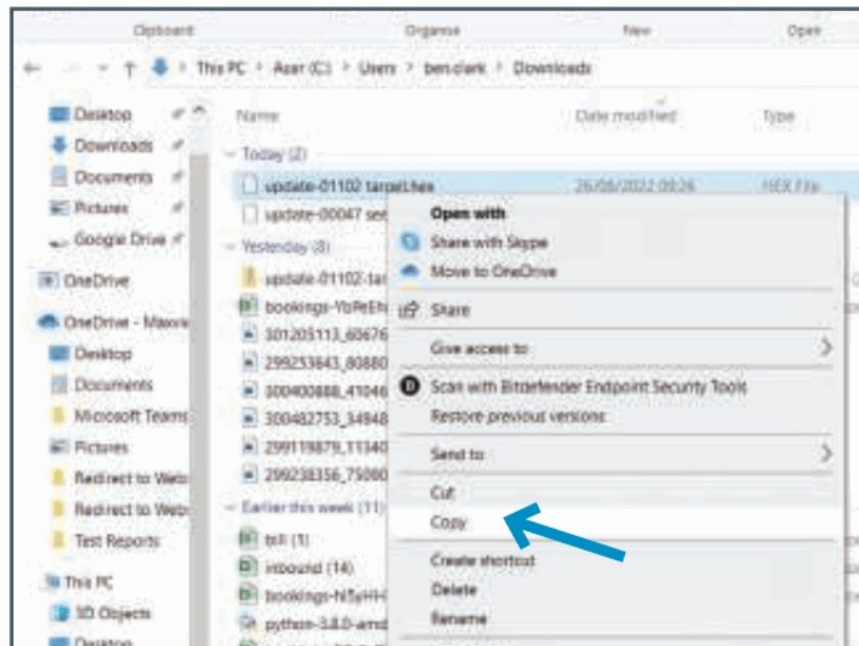

6. Next locate HEX file, right click and select copy.

7. Paste the file onto the USB drive (SEEKER)

## Update file to control box

Power on           SYNC/   SYNC/   USB
                                    Update   Update   port
                                    button   LED

1. Turn on Control Box.

Push in and hold
for 7 seconds

USB
