WC Connectors

Want to feel confident that your WC Connector won't leak? Want a connector that installs and secures easily, and is guaranteed to do the job?

McAlpine WC Connectors have been consistently rated the best in the market by installers.

The only question is, why would you not use a connector that is highly recommended by good trades people across the UK?

WC Connectors

General

- McAlpine is the only European manufacturer to offer EVA (ethylene vinyl acetate), rigid polypropylene and flexible polypropylene WC connectors
- All outlets fit inside diameter pipe sizes as follows:

110mm Plain End	Ring seal socket of 110mm soil or underground pipe and fittings
4"/110mm	PVC-U and cast iron
3½"/90mm	Cast iron
3"/75mm	PVC-U and cast iron

Solutions for all installs with the best range of connectors in the market

Rodent Barrier & Anti Back Flow Valve

ARB-1

Open and Closed Positions

- Prevents back flow when fitted to WC pans, which are connected to the original configuration of drain and soil pipe on a system and comply with the current building regulations and BS EN120562:2000.
- Manufactured in black polypropylene with encapsulated stainless steel mesh.
- Deters rodents from entering building through WC.
- For use with any McAlpine rigid or flexible WC connector with 4"/110mm rubber outlet seal.
- Can be installed in horizontal or vertical position
