MCHOSE GX87 Handy Guide
System mode switch

Backlight setting

Fn +	= + Switch backlight mode	- Switch backlight color	↑ Backlight brightness +	↓ Backlight brightness -	← Backlight speed +	→ Backlight speed-
Status indicator light setting

| Fn +	/? Status indicator color switching	, < Status indicator light brightness +	. > Status indicator light brightness -	⇧ Shift Status indicator light effect switch (right Shift)	⇧ Shift Switch back to charging mode (light Shift)
Wireless connection

·Wireless connection

① Switch to 【B】 mode.

Note:The connection methods of wireless 2
and wireless 3 are the same as wireless 1.
For wireless 2, you can press the key combination 【Fn+E】.
For wireless 3, you can press the key combination 【Fn+R】.
·2.4G connection

① Switch to 【2.4G】 mode.

·Wired connection

① Switch to 【OFF】 mode.

Wired connection

② Press the combination key to switch to wireless 1, press and hold for about 3 seconds until the indicator light at the bottom of the W key flashes quickly, and then enter pairing.

③ Search for the pairing name【GX87 3.0】 or【GX87 5.0】, and the indicator light returns to normal mode after the connection is successful.

② Take out the【USB】receiver from the upper right slot of the keyboard.

③ Plug the USB receiver into the computer's USB port to use it.

② Plug the type-c port into the computer and keyboard USB port.
